& COMMUNITY SERVICES

## Opportunities with Saanich Parks, Recreation & Community Services

"My first job as a Lifeguard and Swimming Instructor helped me to realize that I wanted a career in Recreation. I was able to complete my Degree in Recreation and Health Education while working at the pool. I then went on to work as a Programmer, Coordinator and eventually a Facility Manager. I love that my job helps the community to be active and well and every day brings exciting new challenges"

- Jennifer, Manager, Saanich Commonwealth Place

"Employment with Saanich has allowed me to fund my schooling, make valuable friendships and begin my career in a stable and professional environment. I began with Saanich Community Services as an intern at 15 and have worked my way up to become a programmer for disability & inclusion services. I want people looking for employment to think of Saanich as an organization they can advance, learn and grow within."

- Tyler, Programmer I, Disability & Inclusion Services

"Being a part of Saanich's Park Planning & Design team is rewarding because I help create parks for people to enjoy. I'm passionate about the positive impact our park spaces have on everyone in our community"

- Nikki, Landscape Technician
