

Priority Invasive Plant Management Categories

Category	Description
Prevent	Species not known to occur in the region, but likely to establish if introduced. Eradicate if found.
Eradicate	Species known to occur in limited distribution and low density. Eradicate if found.
Contain	Established infestations found in portions of the region. Contain existing infestations and prevent spread to un-infested areas.
Control	Established infestations common and widespread throughout the CRISP (Capital Region Invasive Species Partnership) area. Focus control in high value conservation areas.

CRISP (Capital Region Invasive Species Partnership)
