

GENERAL NOTES

1. All drawings, plans, models, design, specifications and other documents prepared by Hoyt Design Co (HDC) and used in connection with the project are instruments of service for the work shown in them (the "Work") and as such are not to be used for any other purpose. HDC reserves the copyright in them and in the Work and they shall not be used for any other work or project.
2. It is the responsibility of the Contractor to verify all dimensions, elevations, and site conditions as applicable to the project and the proposed work. The Contractor shall notify the Designer of any errors, omissions or discrepancies identified within the drawings prior to commencement of the work. Commencement of construction or any part thereof constitutes acceptance of the drawings, acceptance of the existing site conditions, and means, dimensions and materials have been considered, verified and are acceptable.
3. The Contractor shall work with a B.C.L.S. to verify correct placement, siting and elevation of the proposed buildings or structures on the property prior to commencing the work. HDC is not responsible for any encroachments with respect to siting, siting or placement. Any proposed changes with respect to siting, siting or placement shall be confirmed with a B.C.L.S. prior to construction.
4. The Contractor shall engage a Professional Engineer licensed in the Province of BC for the design and test review of all structural components and systems within the work as required by the Authority Having Jurisdiction. Prior to commencement of the work, the Contractor shall notify HDC of any changes to the design required by the Structural Engineer, trade manufacturer or other engineering component supplier.

GENERAL NOTES

1. All drawings, plans, models, design, specifications and other documents prepared by Hoyt Design Co (HDC) and used in connection with this project are the property of Hoyt Design Co (HDC) and shall remain the property of HDC whether the work associated or not, and HDC reserves the copyright in them and in the Work produced from them, and they shall not be used for any other work or project.
2. It is the responsibility of the Contractor to verify all dimensions, elevations, and site conditions as applicable to the project and the proposed work. The Contractor shall notify the Designer of any errors, omissions or discrepancies identified within the drawings prior to commencement of the work. Commencement of construction or any part thereof constitutes acceptance of the drawings, acceptance of the existing site conditions, and means, dimensions and materials have been considered, verified and are acceptable.
3. The Contractor shall work with a B.C.L.S. to verify correct placement, size and elevation of the proposed buildings or structures on the property prior to commencing the work. HDC is not responsible for any encroachments with respect to elevation, utility or placement. Any proposed changes with respect to elevation, utility or placement shall be coordinated with a B.C.L.S. prior to execution.
4. The Contractor shall engage a Professional Engineer licensed in the Province of BC for the design and fast review of all structural components and systems within the work as required by the Authority Having Jurisdiction. Prior to commencement of the work, the Contractor shall supply HDC of any changes to the design required by the structural Engineer, trade manufacturer or other engineered component supplier.
