

## e-Bulletin #21 - Council Updates & Mapping Report

Hello,

This e-Bulletin includes two updates on Resilient Saanich:

1. On Monday, August 22<sup>nd</sup> a Progress Report for Milestone Two of the Resilient Saanich project went to Saanich Council for their consideration. The report was endorsed by Council including:

- Resilient Saanich Principles and Goals for the Environmental Policy Framework, which are to be considered in current and future initiatives, including the Official Community Plan Update . Note that the Principles and Goals may be further updated pending feedback from the WSÁNEĆ Leadership Council.
- A workplan for Milestone Three that was endorsed by the Resilient Saanich Technical Committee (RSTC).

At this Council meeting, Diamond Head Consulting also provided an update on their work related to the State of Biodiversity Report (anticipated later this fall).

2. A recent report provided to the RSTC has now been posted on the website: Sensitive Ecosystem Inventory (SEI) within Land Ownership Types in Saanich.

The Resilient Saanich webpages have been refreshed and updated with this new information.

Thank you for following the Resilient Saanich process,

Resilient Saanich team
