

e-Bulletin #22 - Community StoryMap: Deadline Oct. 11th

Hello,

This is an update to the [Community StoryMap](#) launched this summer to gather public information about biodiversity and the urban forest in Saanich. Please note: the deadline to participate is October 11, 2022.

The Community StoryMap is an interactive online mapping tool for residents to help inform the development of a [Biodiversity Conservation Strategy](#) and the [update to the Urban Forest Strategy](#). You can learn more about both projects, explore the mapping and identify places that you value for biodiversity and the urban forest. You can also provide information about threats or improvements needed to sites you identify.

The input collected through the Community StoryMap will help Saanich to understand the community's priorities and issues, as well as help prepare for further public engagement in later project phases.

Please share this opportunity with others: saanich.ca/storymap and thank you for any information you can share through the Community StoryMap!
