

e-Bulletin #4 - Resilient Saanich Resources Update

The Resilient Saanich project has included a number of public factsheets that address action items in Milestone 1 of the project [Terms of Reference](#). This week, two new factsheets were added to the project resources on the Resilient Saanich webpages:

[Factsheet #4 Biodiversity Conservation Resources](#) - a list of biodiversity conservation resources (supporting the work of the Resilient Saanich Technical Committee) now available as a resource for the public.

[Factsheet #5 Biodiversity Related Saanich Reports](#) - Further to Factsheet #4, this factsheet summarizes past Saanich reports related to biodiversity goals, objectives, and criteria.

In addition, a new [Resilient Saanich Updates](#) webpage includes all previously sent e-Bulletins, a list of the project factsheets, and links to the [Resilient Saanich Technical Committee \(RSTC\) meetings page](#) where meeting dates and documents will be regularly updated.

Thanks for your continued interest in Resilient Saanich,

Saanich Environmental Services
