

CORDOVA BAY VILLAGE DESIGN WORKSHOP

HELP SHAPE THE VILLAGE'S FUTURE!

Today's Presentation

- What has the process been?
- Design principles for Cordova Bay Village
- Notable sites
- Concept plan

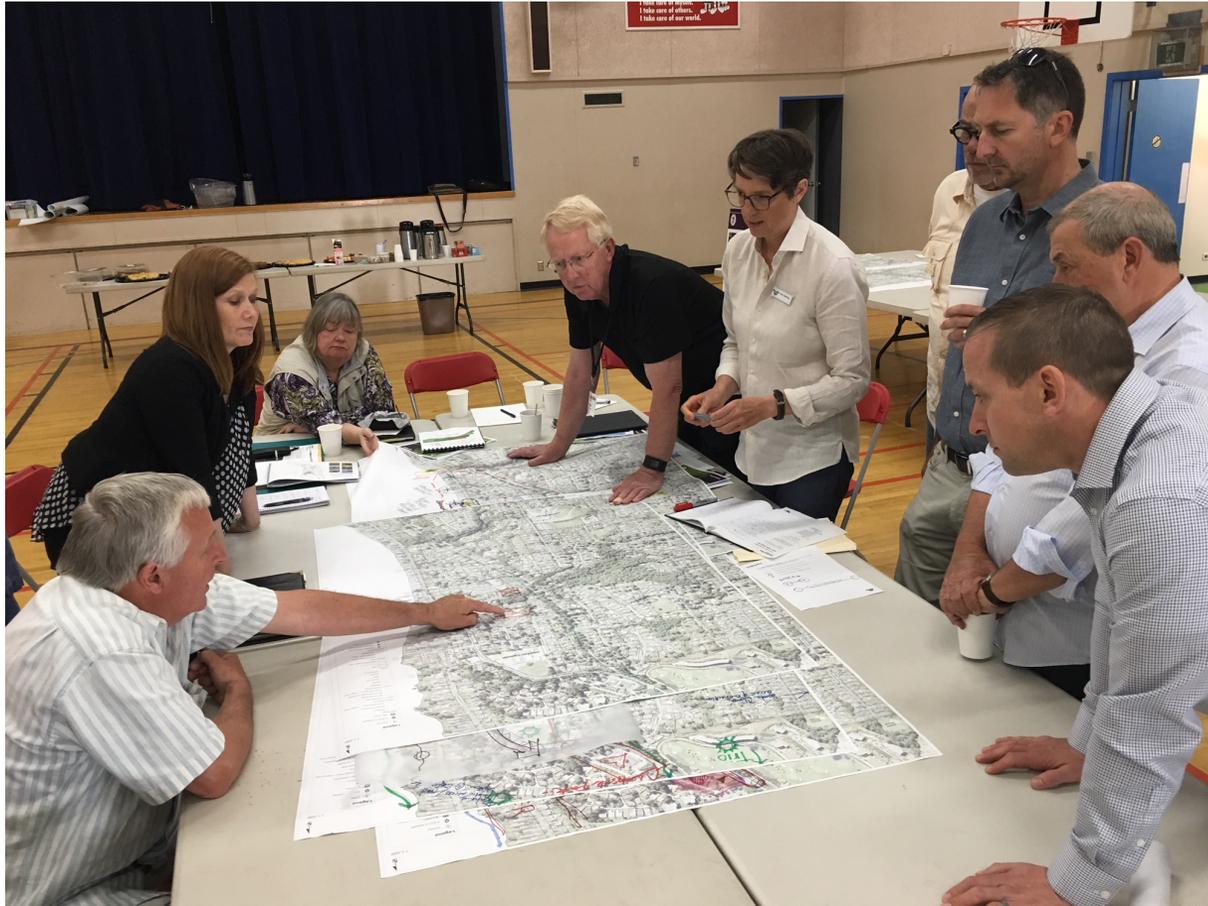

What has the process been?

Thursday Site Tour

Friday Advisory Committee Check-In

Friday Pin-Up

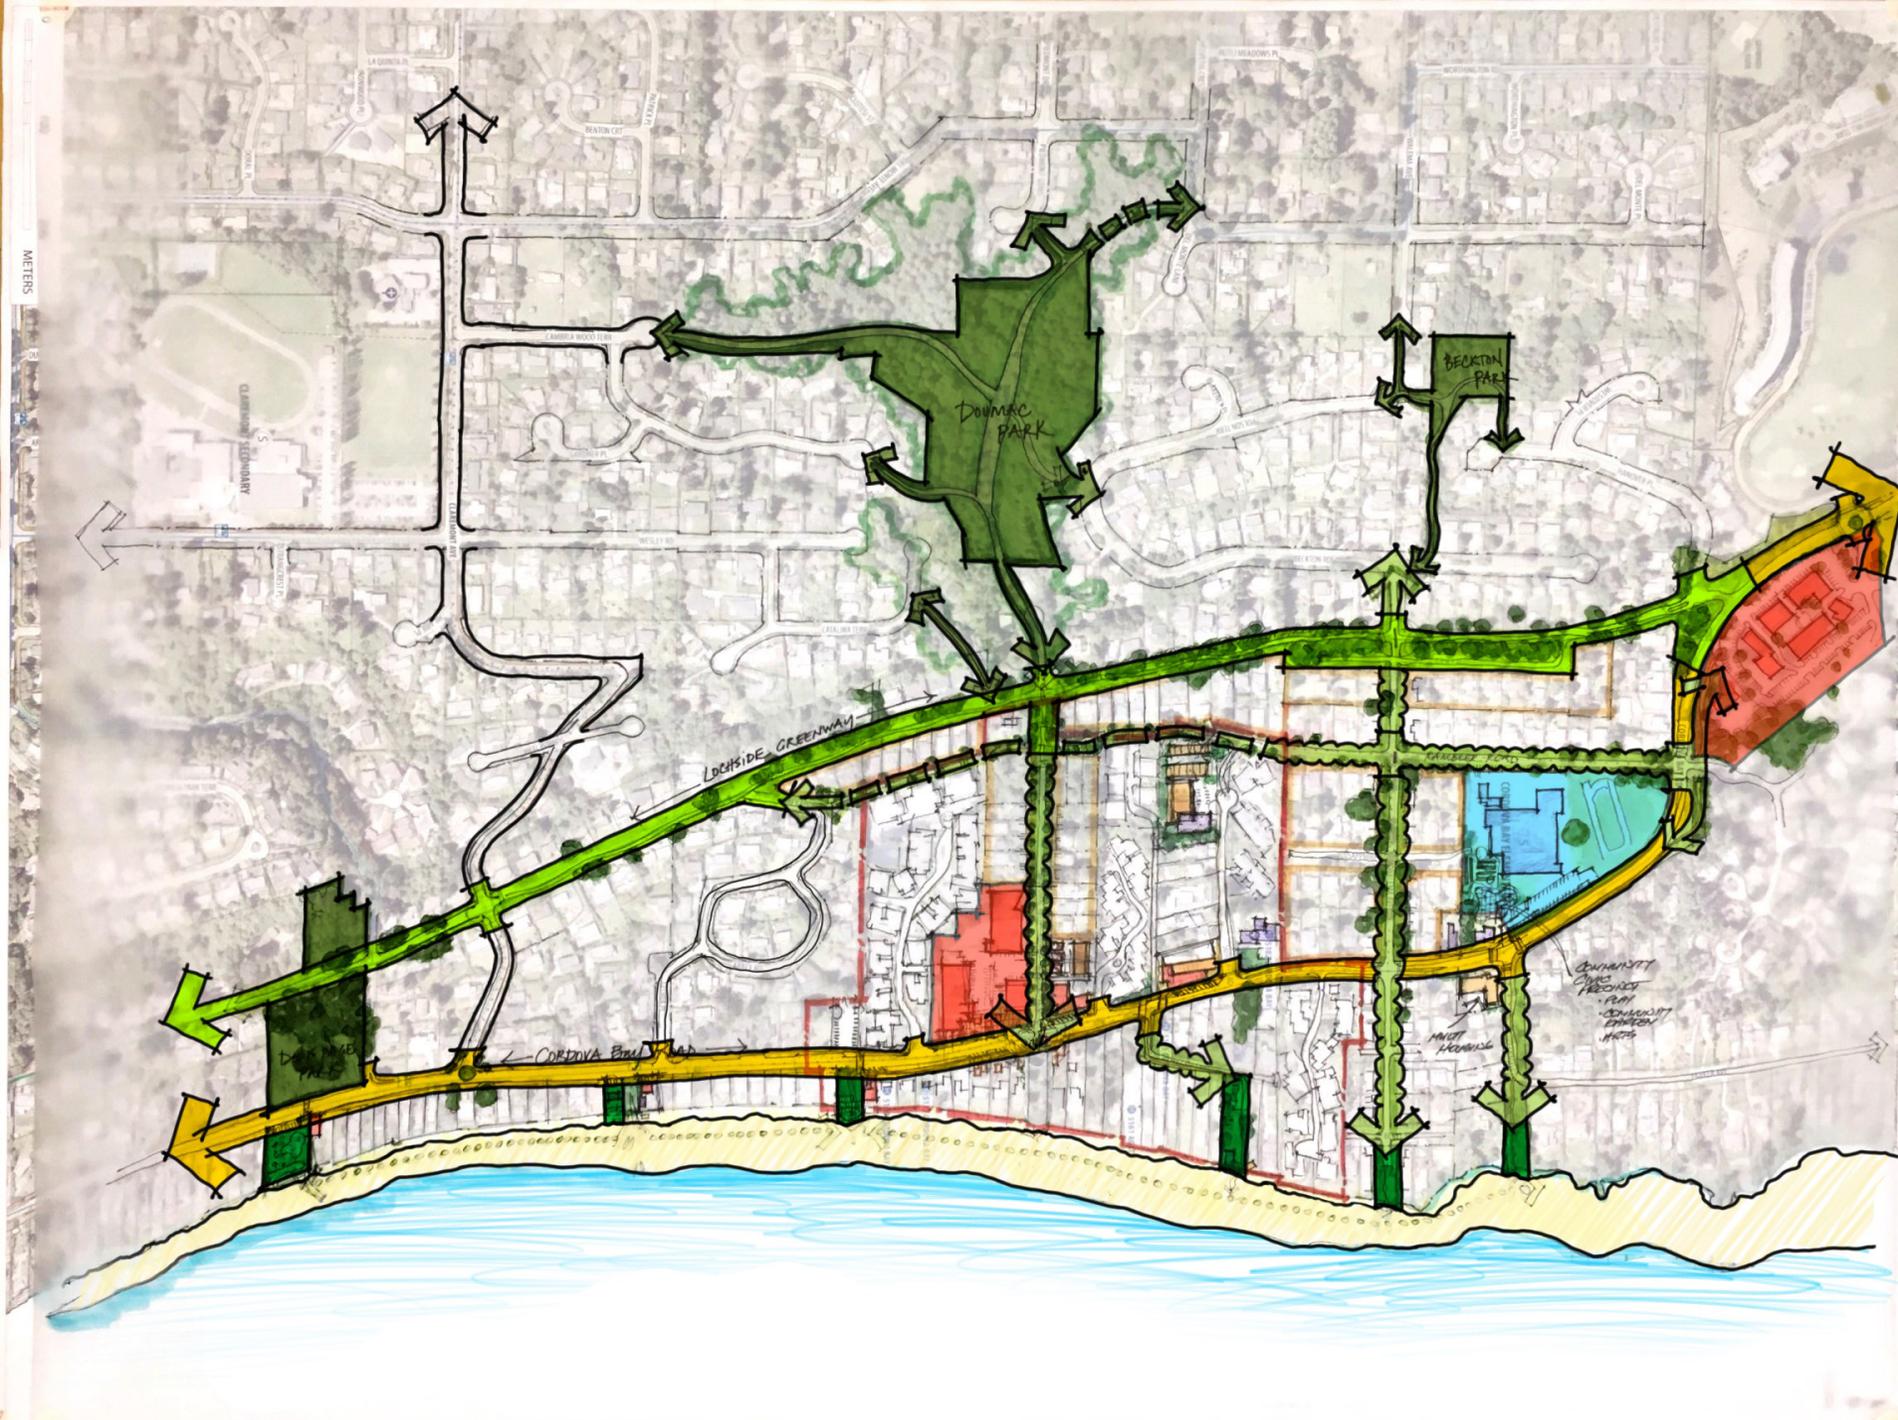

Cordova Bay Village Design Principles

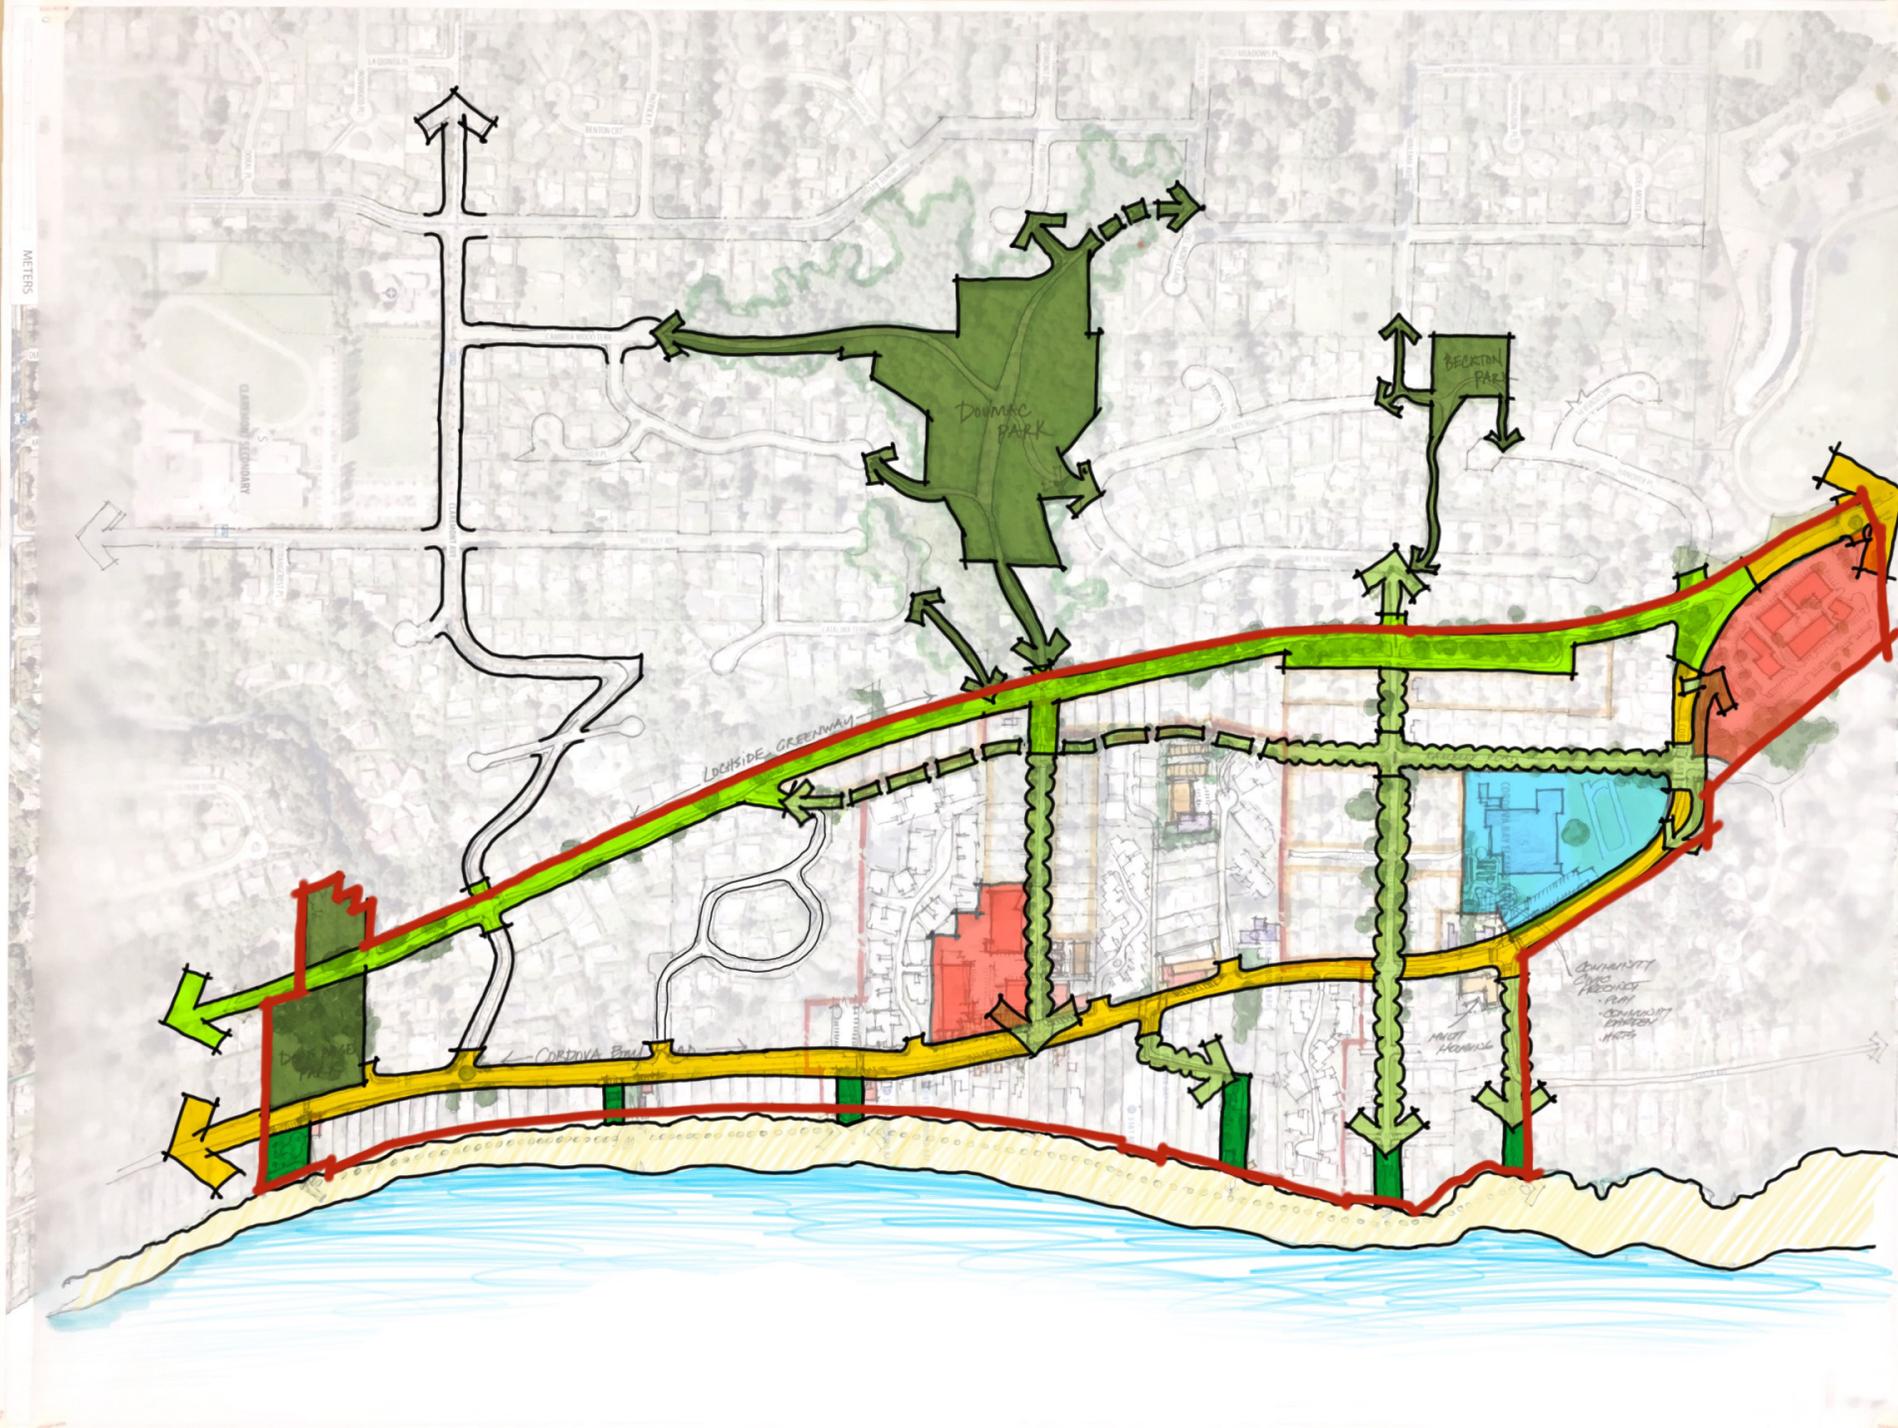

- Retain the **green feel**
- Celebrate the **beach character**
- Create a **compact and complete** village
- Emphasize the **human scale**
- Enhance the **public realm**
- Increase east-west **connectivity**
- Tame Cordova Bay Road
- Increase **sustainability** and **resiliency**

Village and Village Core

Building a Plan from Existing Assets

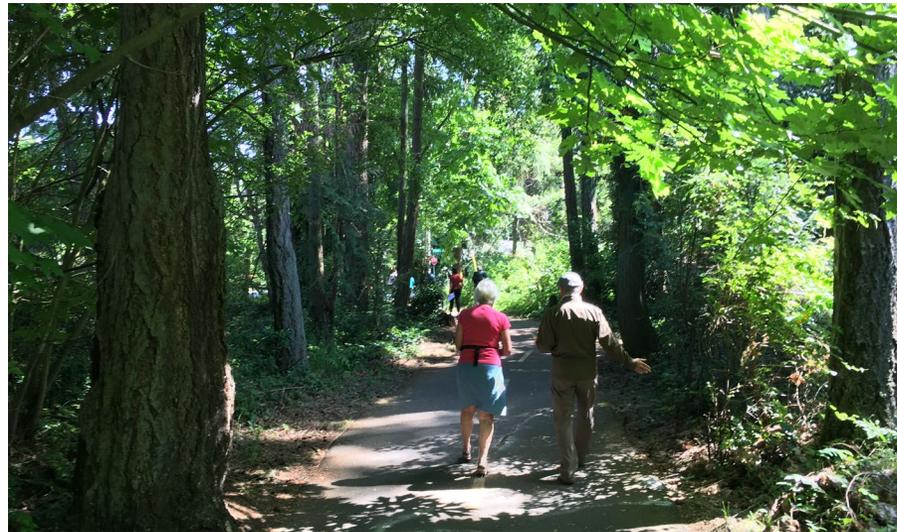

Defining a Logical Village Boundary

**Pearls on
a String
...with a
Pendant**

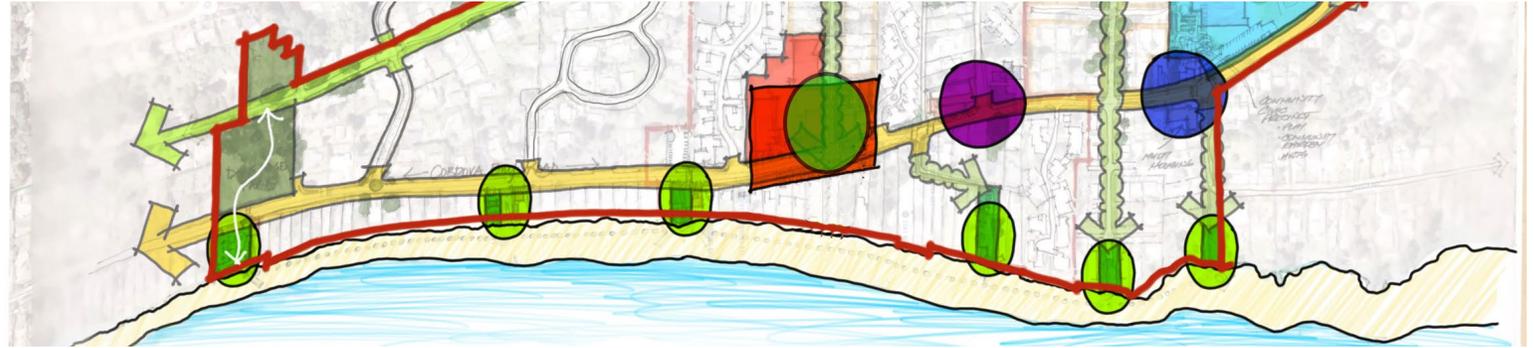

Retain the green feel

- Protect and enhance the urban forest
- Be flexible about setbacks to protect mature trees
- Enhance parks and natural areas

Celebrate the beach character

- Enhance beach accesses

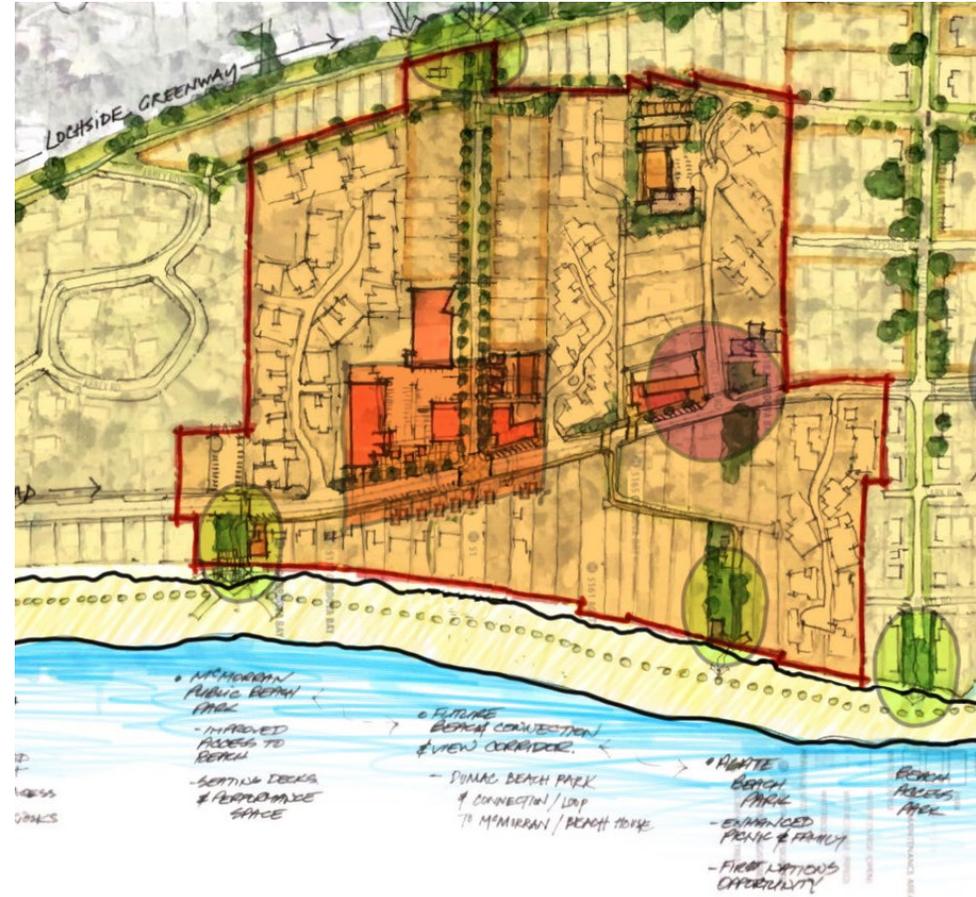

Celebrate the beach character

- Beachside character of village

Create a compact, complete walkable village

- Focus core around Doumac and Cordova Bay Road

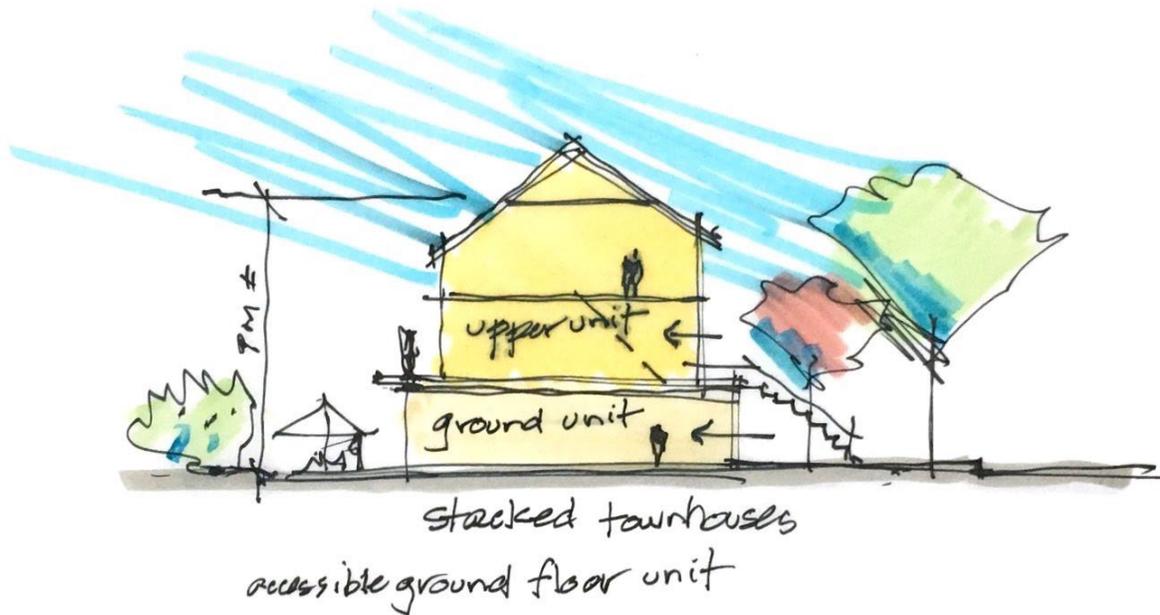

Create a compact, complete walkable village

- Increase the amount and variety of commercial spaces

Create a compact, complete walkable village

- Expand the diversity of housing, including:
 - Housing for seniors
 - Housing for workforce

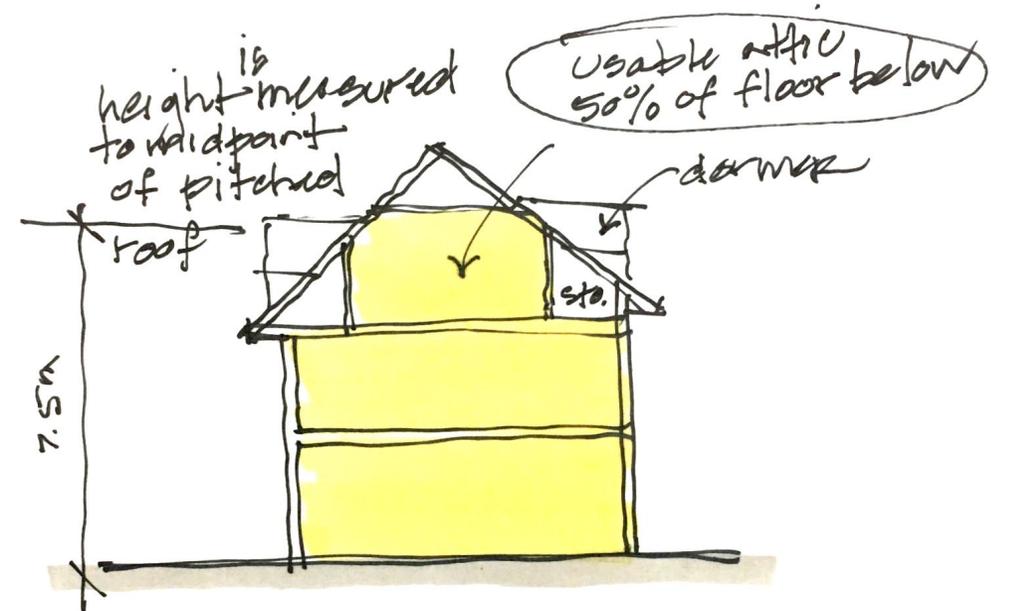

Sensitive infill

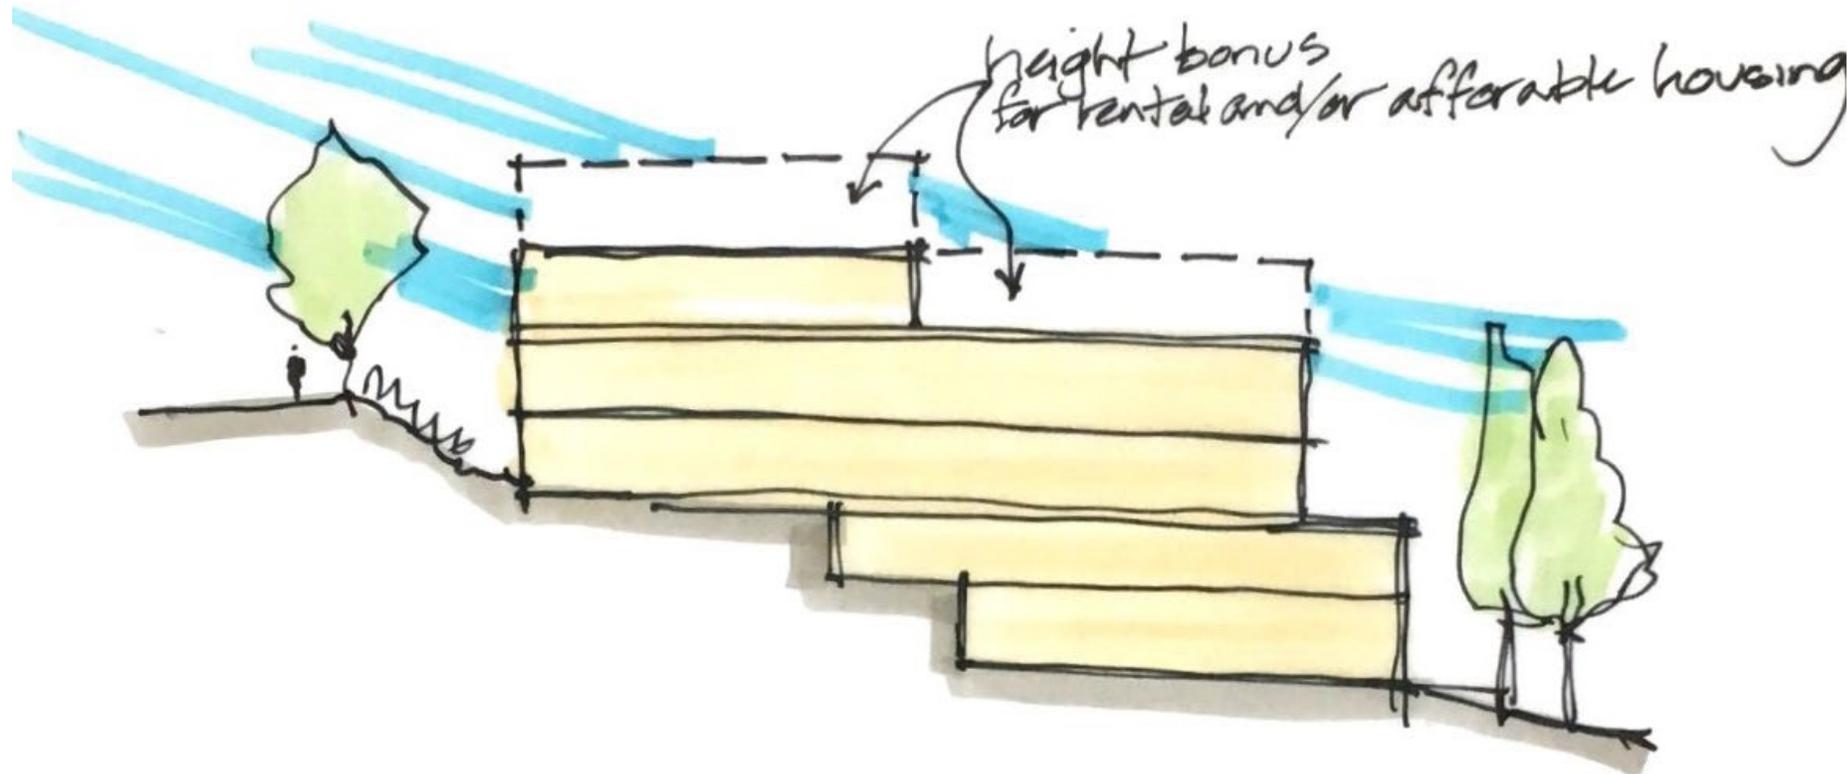

Notes on height and density

- Affordability: affordability requires slightly higher density
- Higher density allows for saving greater amount of greenery

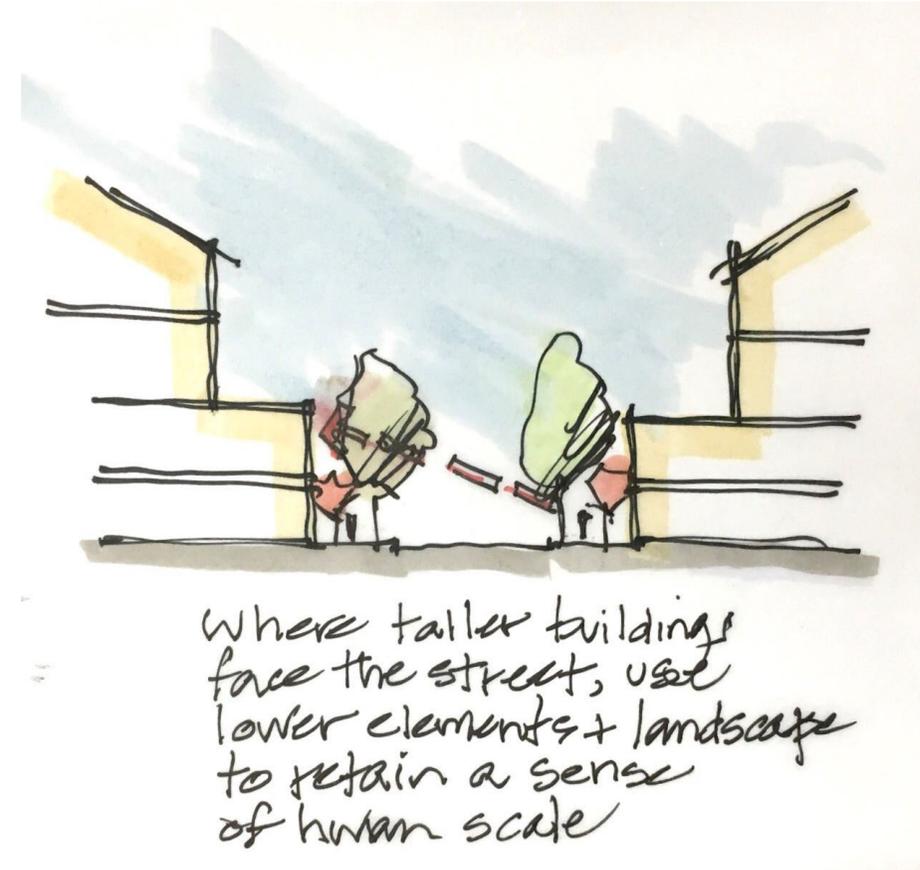

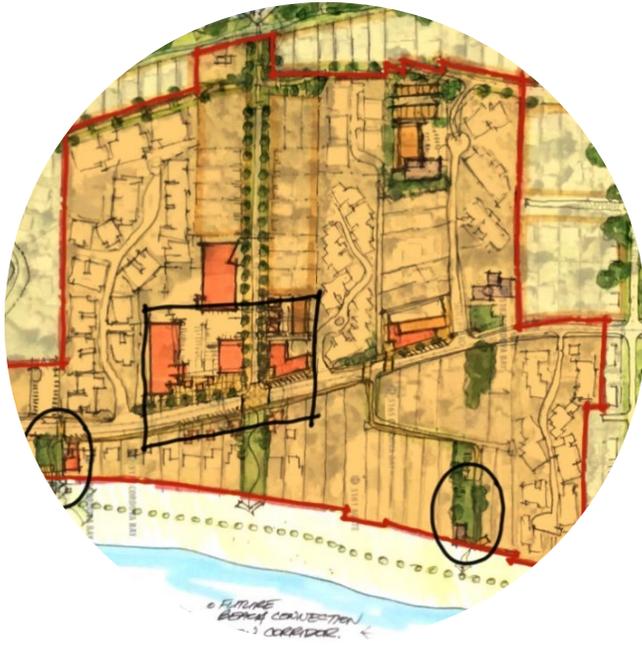

what can be done now for gentle densification?

Notes on height and density

Emphasize the human scale

- Sensitive form and height
- Setting back upper storeys

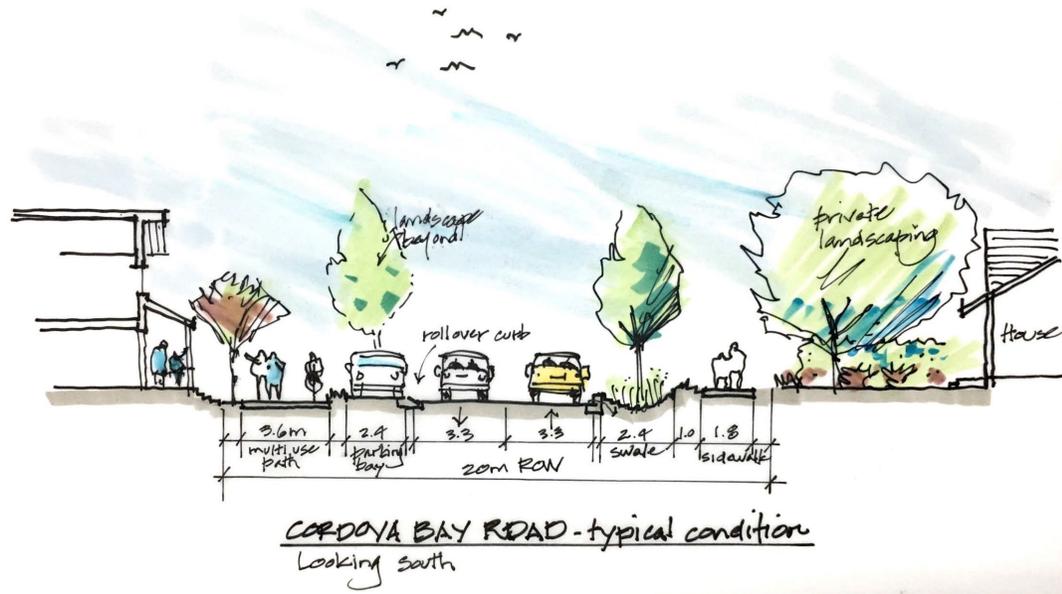

Emphasize the human scale

- Utilize slope to minimize impact of height
- Careful siting of higher buildings

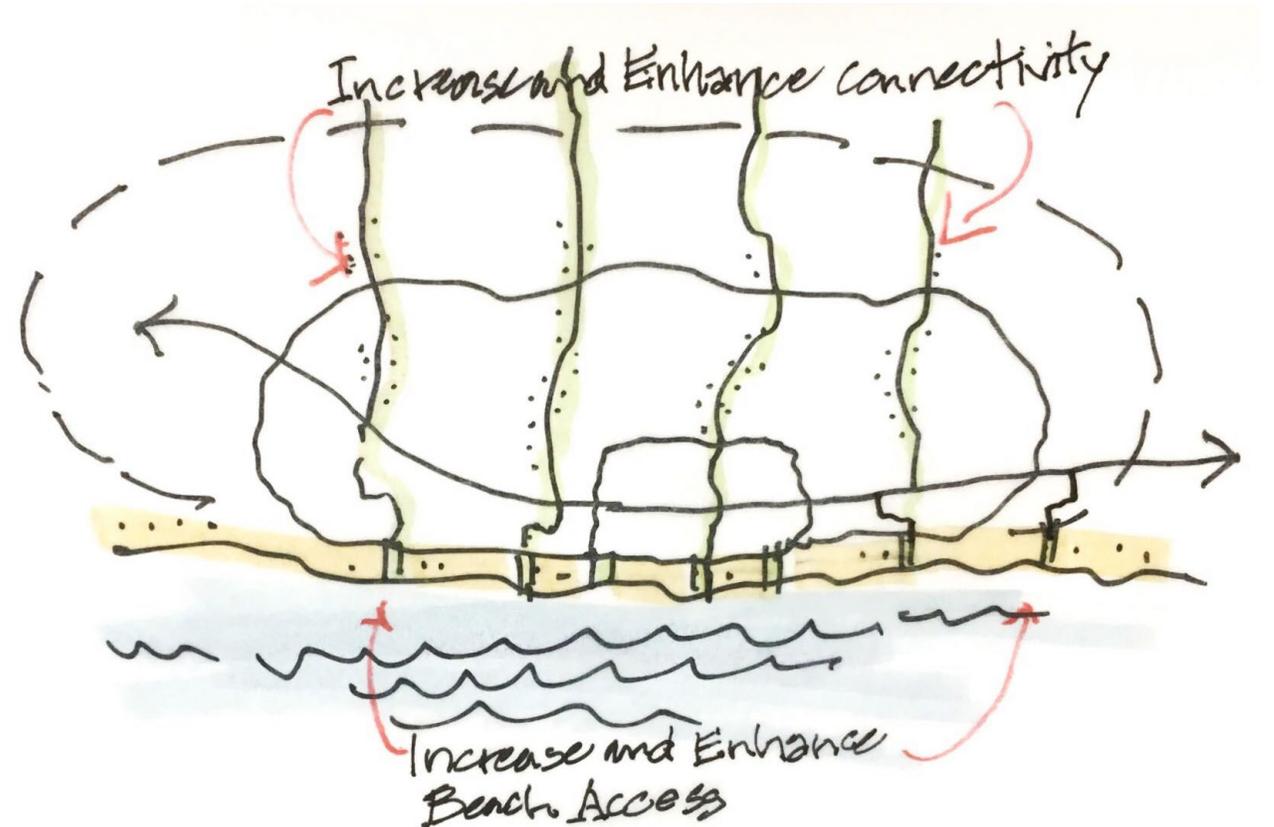

Enhance the public realm

- Enhancing Cordova Bay Road public realm
- Places to sit

Increase east-west connectivity

- Increasing walkability
 - Doumac connection and Walema Road
 - Cordova Bay Road crossings

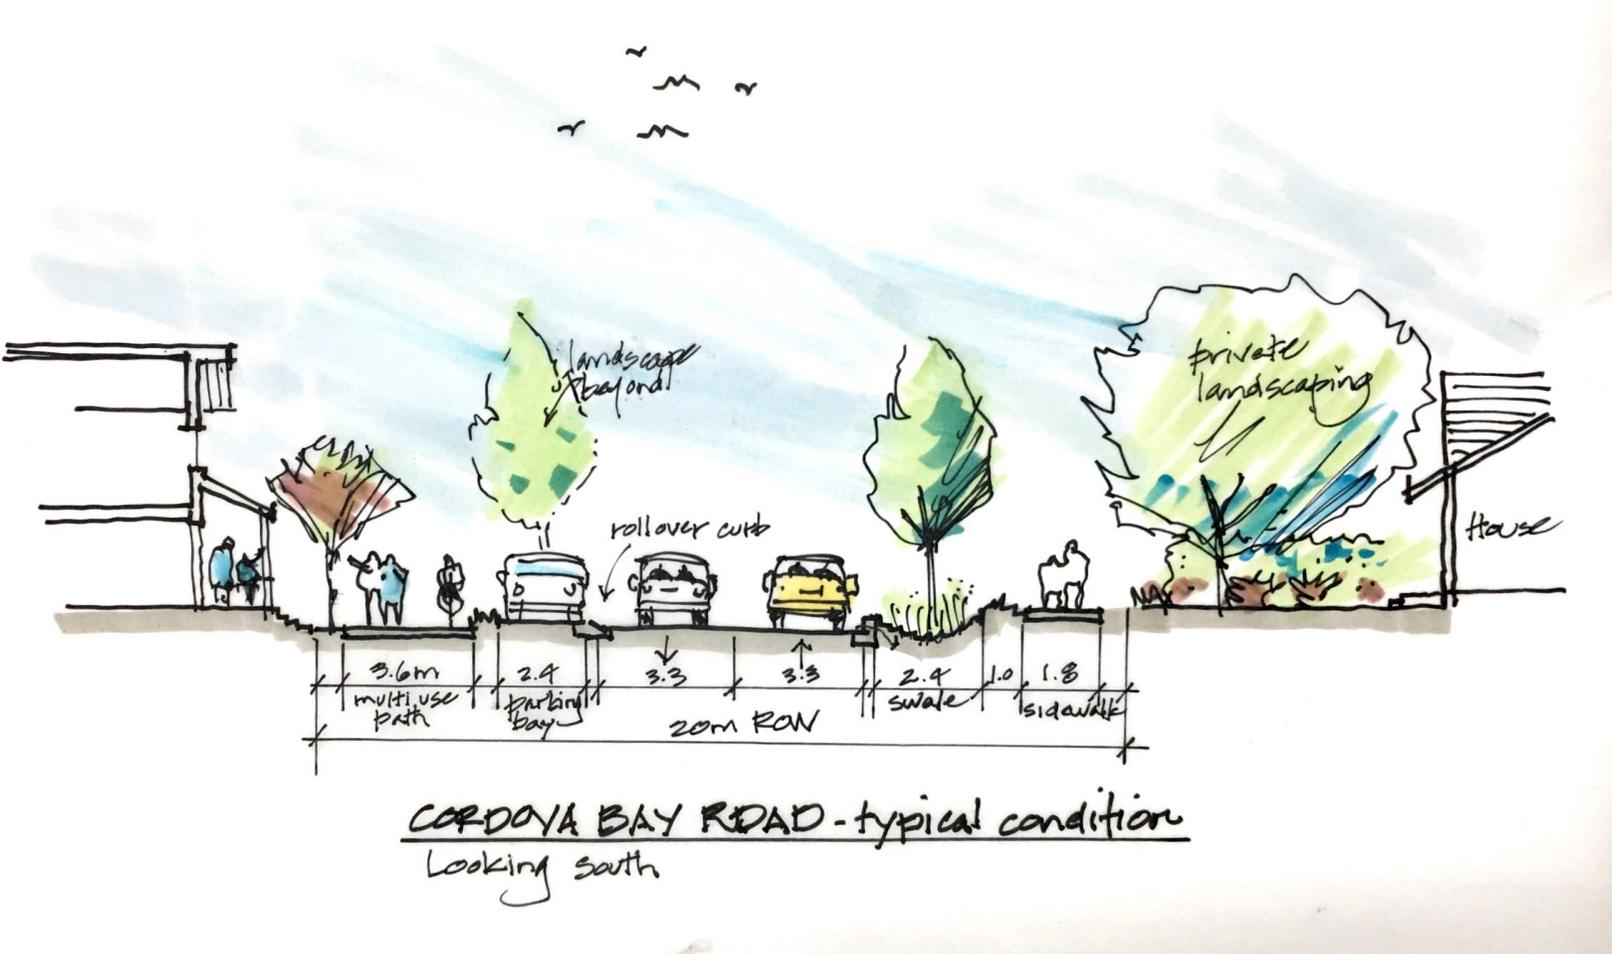

Tame Cordova Bay Road

- Increasing the “stickiness”
 - Bringing buildings to the road
 - Trees and parking

Tame Cordova Bay Road

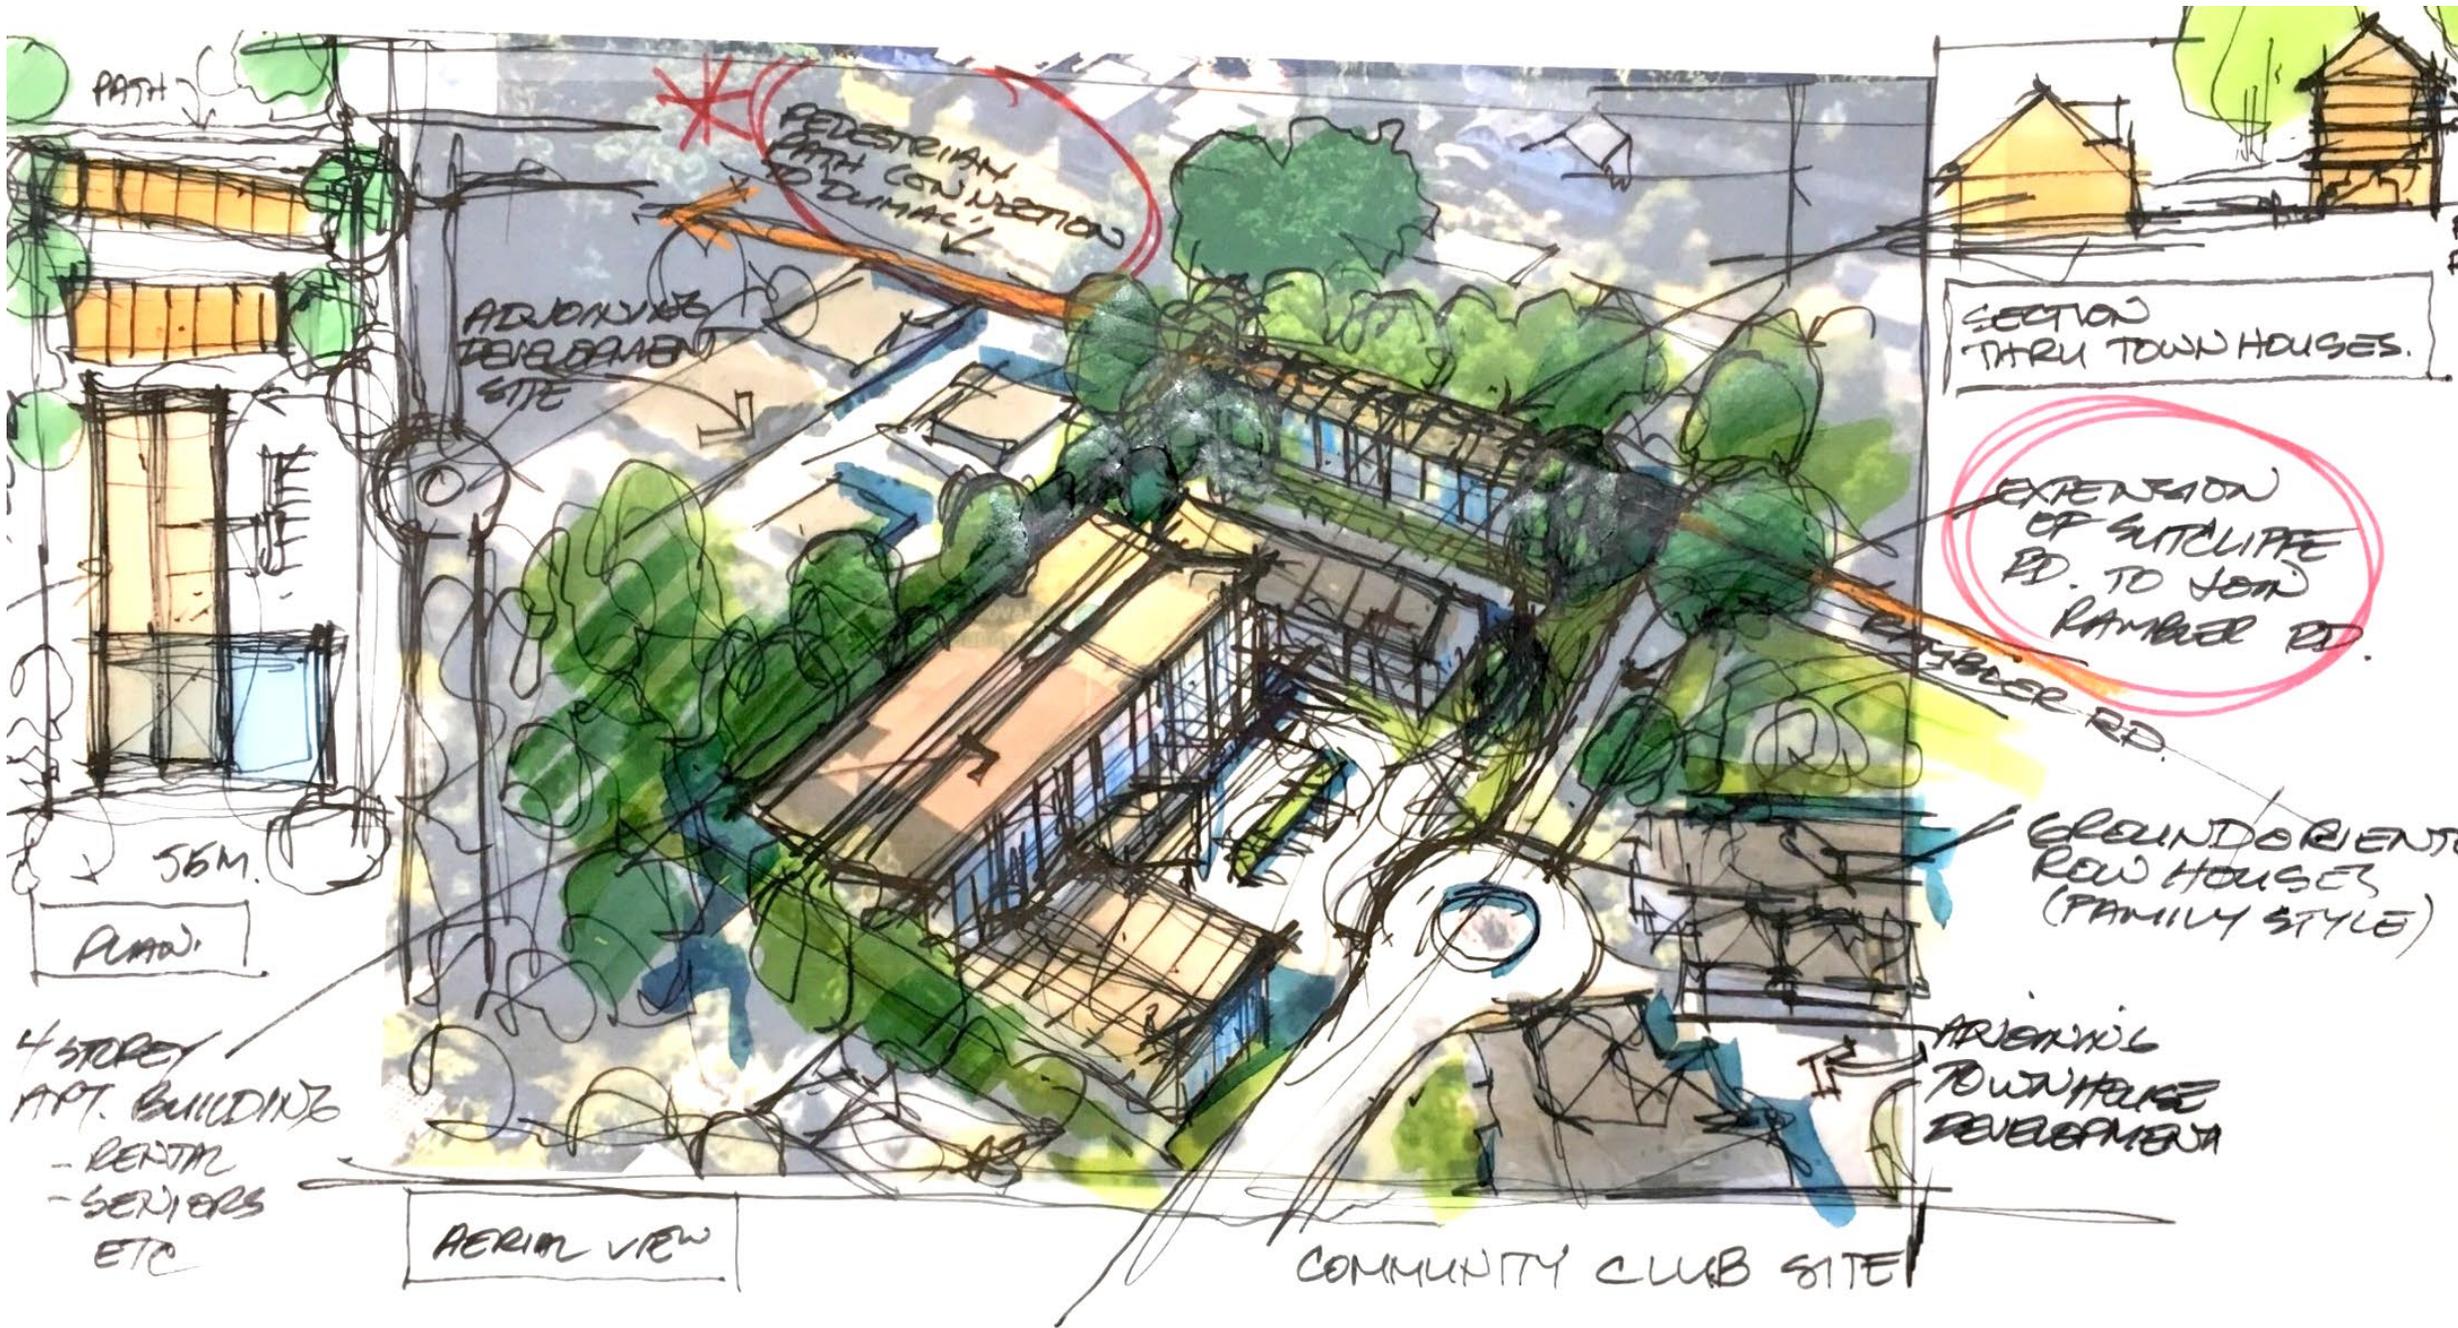

Tame Cordova Bay Road

Notable Sites

Cordova Bay
LOCAL AREA PLAN

PATH

PEDESTRIAN PATH CONNECTION TO DUMAS
