

AGENDA
Natural Areas, Parks, and Trails Advisory Committee To
be held via MS Teams,
Thursday, January 11, 2024, at 4:00 p.m.

The District of Saanich lies within the territories of the lək'wəŋən peoples represented by the Songhees and Esquimalt Nations and the WSÁNEĆ peoples represented by the Tsartlip, Pauquachin, Tsawout, Tseycum and Malahat Nations.

We are committed to celebrating the rich diversity of people in our community. We are guided by the principle that embracing diversity enriches the lives of all people. We all share the responsibility for creating an equitable and inclusive community and for addressing discrimination in all forms.

1. CHAIR'S REMARKS

- Roundtable introductions
- CRD Parks update

2. TERMS OF REFERENCE

- Councillor Brownoff

3. ADOPTION OF MINUTES

- November 9, 2023

4. FIELD RENAMING REQUEST AT ROSEDALE PARK

- Nathalie Dechaine, Manager, Community Development and Business Systems

5. OVERVIEW OF NATURAL AREAS, PARKS AND TRAILS

- Roundtable discussion

6. VOLUNTEER RECOGNITION

- Roundtable discussion

7. BIODIVERSITY AND ECOSYSTEM HEALTH FRAMEWORK

- Eva Riccius, Senior Manager, Parks, Recreation and Community Services

* Adjournment *

Next meeting: February 8, 2024

To ensure quorum, please contact Angela Hawkshaw at 250-475-5494 ext. 3505 or angela.hawkshaw@saanich.ca if you are unable to attend.

Natural Areas, Parks & Trails Advisory Committee

Terms of Reference

Mandate

The mandate of the Natural Areas, Parks & Trails Advisory Committee is to provide recommendations, advice and information to Saanich Council and staff on matters that relate to the purpose of the committee and on any matters which are referred to the committee by Saanich Council or staff.

Purpose

The purpose of the Natural Areas, Parks & Trails Advisory Committee is to:

- Advise Saanich Council and staff on:
 - urban forestry matters
 - policies on parks, trails and natural areas, including services, facilities and specific community interests.
- Provide a community perspective on services, programs, events and capital projects related to urban forestry, natural areas, parks, trails, facilities and related community programs.
- Foster public awareness, recognition and support for a healthy and sustainable natural environment and parks, trails and facilities.

Meetings

The Committee will meet a minimum of four times per year in accordance with its regular schedule of meetings established annually at the first meeting of the year. No meetings are held during the summer and winter breaks (July, August and December). Special meetings may be held at the call of the Chair. The meeting rules and procedures will be in accordance with the Council Procedure Bylaw. Quorum of the Committee is a majority of its appointed voting members, including the Chair.

Membership

To the extent possible, Advisory Committees will have a diverse membership with respect to gender, age, and cultural-ethnic background.

The Committee will consist of eleven (11) members qualified in the discipline relevant to the committee mandate or with a perspective necessary for fulsome consideration of the associated topic, including:

- A member of Council to serve as Chair, appointed by the Mayor;
- Ten (10) community representatives appointed by the Council including, where possible, one (1) youth voting member described as 16-24 years of age; and
- Where possible, at least one (1) member who is an Indigenous person.

Members may serve a maximum of seven years on an Advisory Committee, consisting of a one-year term followed by a potential for three, two-year terms. Members who wish to be re-appointed after the completion of a term must re-apply and provide the application and their resume for Council's consideration.

School District Nos. 61 and 63 may each assign a trustee to the Committee as a non-voting liaison.

Natural Areas, Parks & Trails Advisory Committee Terms of Reference

Staff Support

The Parks, Recreation and Community Services Department is the primary contact and will provide the required professional support. Meeting preparation, agendas and minutes of meetings of the Committee will be provided by the Legislative Services Division.

MINUTES
NATURAL AREAS, PARKS & TRAILS ADVISORY COMMITTEE
Committee Rm. 2 and via Microsoft Teams
Saanich Municipal Hall, 770 Vernon Avenue
November 9, 2023, at 4:11 p.m.

Present: Councillor Judy Brownoff, Pamela Carroll, Catherine Du Bois (via Teams), Christine Harbord, David Little (via Teams), Darrell Wick.

Staff: Troy McKay, Senior Manager of Transportation & Development Services; Paul de Greef, Manager of Parks Planning and Development; Alix Link, Manager of Urban Forestry, Natural Areas, and Community Stewardship; Rebecca Newlove, Manager of Sustainability (via Teams); Megan Squires, Senior Transportation Planner; Angela Hawkshaw, Committee Clerk.

Guests: Joan Hendrick and Carmel Thomson

Regrets: Dave Marecek, Evan Papps and Don Sutton

APPROVAL OF MINUTES

MOVED by P. Carroll and Seconded by D. Wick: “That the Minutes of the Natural Areas Parks and Trails Advisory Committee meeting dated October 12, 2023 be adopted as circulated.

CARRIED

CHAIR’S REMARKS

The Chair welcomed the committee, and the following was noted:

- The Capitol Regional District (CRD) has purchased the former Royal Oak Golf Course parcel of land. A park values inventory will be undertaken. Through ecological restoration, the landscape could support a large diversity of species.
- A motion was passed by the CRD that any maintenance or improvements required at Elk and Beaver Lake Parks will be handled through property taxation and grants. Free parking will remain.

PROSPECT LAKE HYDRO GROUP

The guest speaker made the following presentation, and the following was noted:

- All options have been exhausted through the Municipal and local Constituency Office. The co-operation and assistance from Saanich staff are appreciated.
- Ongoing communication and persuasion from Saanich citizens and staff have been unsuccessful.
- The planned tree loss has grown from 362 to 485 trees. An estimated 98% are believed to be native species and mature protected trees.
- A BC Hydro representative stated the project could proceed at any time within the next 3

years.

- This project is environmentally destructive and is designed to service only 100 properties along 4.8 km.
- A focus on replacement trees is unobtainable.
- This project may only be adjusted via a political solution. The ministers responsible for BC Hydro, resource management and climate mitigation actions demand to mediate a solution; to place this project on hold in order to allow for a thorough review of its planned route and its effects.
- A strategy has been sent to Lana Popham, Minister of Tourism, Arts, Culture and Sport; Josie Osborne, Minister of Energy, Mines and Low Carbon Innovation; and Nathan Cullen, Minister of Land, Water and Resource Stewardship. These Ministers may direct BC Hydro to investigate alternate routes and have transparency in communication.
- The recommendation contained in the report (on file) from Councillor Brownoff is supported by the Prospect Lake Road Trees Advocacy Group.
- A future initiative to work with Ministries and communities to curb BC Hydro's excessive power is key.
- The *Hydro and Power Authority Act [RSBC 1996] Chapter 212* needs updating.

ACCESSIBILITY AND UNIVERSAL DESIGN IN PARKS

The Manager of Parks, Planning and Development gave the following presentation (PowerPoint on file), and the following was noted:

- Accessibility guidelines and strategies are used within parks.
- Universal design and signage that is easy to read is a general rule.
- 8 accessible washrooms have been upgraded.
- Useable and accessible trail systems have been enhanced on Mt. Tolmie.
- Playgrounds are replaced and repaired regularly. Equipment is constantly upgraded.
- Wood chips qualify as an accessible surface material.
- Playground equipment have transfer stations for physical or visually handicapped children.
- The beach mat at Gyro Park is the only one in Saanich. It is challenging to keep clear from debris but is well used.
- The benches at Lambrick Park are designed to be accessible. The tables have extended ends and concrete pads for wheelchairs.
- The Enabling Accessibility Fund has provided some funding for various projects in Saanich's parks.
- Topography is a challenge in many of the parks.
- The leash optional parks have wider trails and grades that will allow for all users.
- Enclosed leash optional areas could be developed with wider gates to enter, material to accommodate walking aids and wheelchairs, seating, and clear signage.
- The People, Pets, Parks strategy is not a design concept. The considerations are part of the design process. Saanich is currently in the strategy stage.
- PKOLS parking lot is having several upgrades done to the walkways and curb letdowns.
- A future presentation to the committee about Park design is welcome.
- Information gathered from the *Pop-up Dog Parks* pilot project has offered insight for future facilities and the amenities they could provide. The learning outcomes included the durability of the fencing and the maintenance requirements for the turf. This program was

in place for 5 months. A phased approach is expected, and new locations could be explored.

The committee made the following comments:

- Francis King Park’s boardwalk is accessible and could be a design for future projects.
- Saratoga Beach has a mat strategically placed to allow access for all abilities while protecting the entry area from varying weather conditions.
- Saanich does not offer advice to other accessibility plans or reviews.

The Parks Planning and Development Manager exited the meeting at 4:36 p.m.

BC HYDRO PROJECT – REPORT

The Chair introduced the report, and the following was noted:

- In early 2023, BC Hydro approached the District of Saanich with a proposed project to upgrade high voltage power lines along Prospect Lake Road from Meadowbrook to Munn Road.
- The community has indicated to Saanich that residents have not seen the project plans, timelines, or proposed routing.
- No compensation for trees lost is being considered by BC Hydro despite requests from staff and political representatives.
- A rooting technology was presented as an alternative. This idea was not accepted.
- 3 different timelines have been communicated.
- The Mayor has requested a letter be sent from the Natural Areas, Parks, and Trails (NAPT) committee. This will allow for his signature and a record on file.
- Prospect Lake Rd. will not be widened by Saanich. Site lines and safety are the main concern.
- An increase in hydro consumption due to electric vehicles, secondary suites and larger homes is an explanation for the project.
- The staff have not received an Environmental Impact Assessment.
- An open house with BC Hydro has been requested by the community.
- The housing targets take into consideration rural and environmental impacts.

The recommendation in the October 24, 2023, report by Councillor Brownoff was considered. The committee requested amendments which are noted in the motion below.

MOVED BY D. Marecek and Seconded by C. Du Bois: “That the Natural Areas, Parks, and Trails Advisory Committee recommend that Council send a letter to BC Hydro regarding a hydro line upgrade along Prospect Lake Road requesting the following:

- a clear rationale and supporting evidence for the project;
- a project plan with timelines;
- compensation to Saanich for tree losses;
- a fulsome environmental impact assessment;
- mitigation to Saanich for environmental impacts (based on a fulsome environmental impact assessment) with a focus on ecological restoration;
- collaboration by BC Hydro with the community along Prospect Lake Road; and
- explore development of a Protocol Agreement between BC Hydro and Saanich with respect to BC Hydro projects in Saanich that are likely to have environmental and tree-related impacts. This agreement would include processes for transparent communication, referrals, engagement, and conflict resolution with Saanich and the community as well as decision-making timelines.

CARRIED

DRAFT UPDATED ACTIVE TRANSPORTATION PLAN UPDATE

The Senior Transportation Planner gave a presentation (PowerPoint on file), and the following was noted:

- The updated Active Transportation Plan (ATP) document reflects current policies, incorporates up-to-date travel data, reviews, and updates infrastructure priorities for the next 15 years. This will create a framework for future traffic calming policies and address emerging technologies.
- Council adopted the first ATP in 2018 and a commitment was made to update the plan every 5 years.
- The update has been presented to Committees and will be considered by Council in December 2023.
- The feedback that was given in the Spring through online surveys, open houses, and pop-ups events, has been collected and integrated in the update.
- 70% of the public responders support the Vision Statement.
- The Saanich Climate Action Plan lists transportation as one of the key action areas in reducing greenhouse gas emissions in the community.
- The updated goals have been well accepted and supported.
- Expanding and enhancing the trail network has been updated with definitions and actions.
- Timeframe, method, responsibility, and goals guide the implementation of strategies and actions.
- The criteria for prioritization were clarified to include trails.
- Stakeholders have requested a more thorough and complete list of projects and timelines.
- Prioritization is based on feedback received from the surveys and staff input.
- Sidewalk, Cycling and Trail network maps are new to the plan.

The committee made the following comments:

- The new 40 km speed limit may be difficult to enforce.
- Local destinations could offer safe parking and storage for bikes.

- The new protected bike lanes are narrow and difficult to pass other riders. Gaps have been added for this purpose. Future plans are for wider lanes.
- Bicycle parking for new developments could have more guidance. The existing developments do not have a mechanism to adjust parking issues. In the ATP there is a program to assist in upgrading the bike storage.
- The terminology used for the different timelines may be confusing.
- There is no policy in the document to allow businesses to park on residential roads.
- It is appreciated that maps show future plans for residents.
- The trails are shown as a base layer on all the mapping.
- A way to categorize the trails would be helpful.
- Grants could allow for faster timelines.
- Future developments will have guidelines for bike parking.
- Tillicum Rd. could use more area for the safe passage of emergency vehicles.

MOVED by D. Little and Seconded by C. Du Bois: “That the Natural Areas, Parks and Trails Advisory Committee supports the Final Draft Active Transportation Plan with minor updates to the mapping, which are currently underway.”

CARRIED

ADJOURNMENT

The meeting adjourned at 6:39 p.m.

Councillor Brownoff, Chair

I hereby certify these minutes are accurate.

Angela Hawkshaw, Committee Clerk

Memo

To: Natural Areas, Parks and Trails Advisory Committee
From: Angela Hawkshaw, Committee Clerk
Date: December 4, 2023
Subject: 2024 Meeting Dates for Natural Areas, Parks and Trails Advisory Committee

As per Section 85(a) of Council Procedure Bylaw 2015, No. 9321, each committee shall establish a regular schedule of meetings including the date, time and place of the committee meetings.

Advisory Committee meetings are scheduled to be two hours in duration. There are no meetings in July, August or December, unless a special meeting is called for urgent business.

Council Chambers has been booked for the second Thursday of the month from 4:00 – 6:00 pm for the year, excluding July, August and December.

Dates for your calendars are as follows:

2024 Meeting Dates
January 11
February 8
March 14
April 11
May 9
June 13
September 12
October 10
November 14

No formal motion is required to approve the meeting schedule.

Angela Hawkshaw
Committee Clerk

The Corporation of the District of Saanich

Report

To: Natural Areas, Parks, and Trails Advisory Committee
From: Nathalie Dechaine, Manager of Community Development and Business Systems
Date: 1/4/2024
Subject: Field #2 Naming Request at Rosedale Park

RECOMMENDATION

That the Natural Areas, Parks and Trails Advisory Committee (NAPT) support the request to name Softball Diamond #2 at Rosedale Park, "Wes Jantzen and Pam Schon Field", in honour of Wes Jantzen and Pam Schon.

PURPOSE

The purpose of this report is to bring forward a field naming request to NAPT for review. The request to name Softball Diamond #2 in Rosedale Park to "Wes Jantzen and Pam Schon Field" was initiated on behalf of the Strawberry Vale Fastball Association, the Home User Group at Rosedale Park. In addition to the letter of request, there are three letters of support accompanying the proposal.

The process being undertaken is consistent with the Council Policy, "Parks Naming Policy", specifically under section 2:

"Significant features within a park may be named separately based on a recommendation from a community organization, reviewed by the Parks, Trails and Recreation Advisory Committee, and approved by Council."

NAPT is considered the successor advisory committee to the Parks, Trails, and Recreation Advisory Committee.

BACKGROUND

Rosedale Park is home to the Strawberry Vale Minor Fastball Association (SVFA), which provides fastball opportunities for youth.

Saanich has a number of sports fields named after individuals, including Diamond #1 at Rosedale Park, which was named the Rae Patterson Field in 1984, "Dedicated in Memory of his inspirational contributions to the community and to the Strawberry Vale Softball Association".

DISCUSSION

As members of the SVFA for 26 years, Wes Jantzen and Pam Schon have undertaken the volunteer roles of President, Director-at-Large, Umpire Coordinator, Tournament Coordinator, Concession Manager, Uniform Manager, Learn to Play Coordinator, Victoria Women's Fastball League liaison, Field Crew Member, and Groundskeeper. For the past 6 years, Wes and Pam have undertaken all these duties simultaneously.

In 2017, Wes Jantzen was awarded the Softball BC Volunteer Award for outstanding service to the softball community, followed by the SVFA being nominated for Softball BC's Best Small Association in 2018.

Due to a recent health diagnosis, Wes Jantzen and Pam Schon have had to step down from their positions with the SVFA immediately.

A report is scheduled to go to Saanich Council on January 22, 2024, for decision. This request is time sensitive due to the community member's health concerns.

FINANCIAL IMPLICATIONS

There are no financial implications for supporting this recommendation.

OFFICIAL COMMUNITY PLAN IMPLICATIONS

This request supports the following in the Proposed Official Community Plan (2023):

7.2.9 Support improvements to neighbourhood and community parks, beaches, and community/recreation facilities to reinforce their role as local gathering spaces and focal points in the community.

13.1.2 Continue to work with sports groups and other park stakeholders to support and strengthen the community.

CONCLUSION

Saanich Parks staff support the request to name Softball Diamond #2 at Rosedale Park in dedication to Wes Jantzen and Pam Schon for their commitment to the softball community and Rosedale Park.

Attachment 6: Rosedale Park Map#2

ATTN Donovan Coates,
Park Use Coordinator, Saanich Parks and Rec

I, Danielle Wilhelm, on behalf of Strawberry Vale Fastball Association, would like to present to Saanich Council, a proposal to rename Diamond 2 at Rosedale Park, 4110 Santa Anita Ave, Victoria, BC. I am making this proposal as a long-time member of Strawberry Vale Fastball Association, and am the incoming President. This proposal is being made with the support of the current executive.

Rosedale Park, the home of Strawberry Vale Fastball, is a place where I have spent 24 years of my life and countless hours enjoying the sport I love - first as a minor player, then as part of the women's league, and most recently as a minor team coach and manager for the past 10 years. When I think of visiting Rosedale Park for any softball event, I think of Wes Jantzen and Pam Schon. As members and leaders of the association for the past 26 years, I cannot think of a time when I have been at the field without seeing Wes and Pam – organizing teams, coordinating umpires, running tournaments, operating the concession, and always cheering loud, showing their unwavering support. Wes and Pam are Strawberry Vale.

With a recent health diagnosis forcing them to step down and step away from the park immediately, I, as a representative of many, would like to propose the renaming of Diamond 2 in honour and recognition of the surmountable and enduring efforts that Wes and Pam gave to Strawberry Vale Fastball and all of its associated players, members, and counterparts.

*Proposal to rename Rosedale Park, Diamond 2: **Wes Jantzen and Pam Schon Field***

As members of Strawberry Vale Fastball for 26 years, Pam and Wes have undertaken almost every role you can think of – President, Directors-at-Large, Umpire Coordinator, Tournament Coordinators, Concession Managers, Uniform Managers, Learn to Play Coordinators, Victoria Women's Fastball League liaisons, field crew, and groundskeepers, just to name a few. What might be more impressive than this resume (all volunteer positions by the way), is that for the past 6 years, Wes and Pam have taken on all of these duties by themselves, at the same time. Without question – Strawberry Vale Fastball exists because of Wes and Pam.

It has been an honour to get to coach and represent this organization that Wes and Pam have built and continue to pour their time and selfless love into. One thing that stands out most to me is that after they are able to complete all of the duties listed above, Wes and Pam are our teams number one fans – attending our games even when we are on the road or off the island, very seldom missing an opportunity to show their support.

Through their time, energy, and dedication to Strawberry Vale Fastball, Wes and Pam have built a community and a family. They are recognized by many – even those that aren't members of our park, and will never pass up an opportunity to help, chat, or talk softball. From the ground up, building a softball program at Strawberry Vale that started with Learn-to-Play, all the way through to the women's

league, Wes and Pam have built a place and a park of community, of safety, and a place that has allowed so many to grow and thrive in sport.

These outstanding efforts have not gone unnoticed – Wes Jantzen was awarded the Softball BC Volunteer Award in 2017 for outstanding service to the softball community, which was followed up by a nomination for Softball BC's Best Small Association in 2018.

Included are letters of support from members of the softball and sport community in Victoria. It is easy to see the impact Wes and Pam have had on our community and it is my honour to be able to present this proposal.

I thank you for your time and consideration.

Danielle Wilhelm,

Strawberry Vale Fastball Association

P.O Box 2343
Sidney, BC

www.pbsa.ca

November 15th, 2023

Dear Advisory Committee and Council,

I hope this letter finds you well. I am writing to express my unwavering support for the proposed renaming of the Rosedale Park in recognition of Wes and Pam Jantzen. As an avid member of the softball community and someone who has witnessed firsthand the positive impact they have had, I believe it is only fitting to honor their contributions in this meaningful way.

Wes and Pam have dedicated countless hours to the park, consistently going above and beyond to make a difference. Their unwavering commitment, passion, and innovative approaches have not only elevated the park but have also inspired and positively influenced many individuals, including myself. Their contributions have left a lasting legacy, and it is only right that we acknowledge and celebrate their remarkable achievements.

By renaming the field in their honor, we not only pay tribute to their outstanding work but also set a precedent for recognizing and valuing the efforts of individuals who have made significant contributions to our community. This symbolic gesture will serve as a constant reminder of the positive impact that Wes and Pam have had and will continue to inspire future generations to follow in their footsteps.

I wholeheartedly support this change and urge you to consider it favorably. The renaming will not only serve as a testament to the exceptional work of Wes and Pam but also as a source of inspiration and motivation for others to strive for greatness.

Thank you for your time and consideration. I look forward to seeing this proposal come to fruition and witnessing the lasting impact it will have on our community.

Yours sincerely,

Don Savostianik
VP Peninsula Baseball and Softball Association

November 1, 2023

Donovan Coates
Parks Use Coordinator
Parks, Recreation and Community Services Department
District of Saanich

Dear Donovan,

I am writing this letter in support of renaming the softball diamonds at Rosedale Park in honour of Wes Jantzen and Pam Schon. Wes and Pam have been the faces of Strawberry Vale Minor Fastball for well over 20 years. Their dedication to the association has allowed countless children, young women and adults to enjoy the sport of softball over the many years of their service to the Saanich and Greater Victoria community.

My daughter has played softball with Strawberry Vale Minor Fastball for the past 7 seasons, since 2017. During that time, Wes and Pam have been extremely supportive of the team. They organized and hosted several tournaments and were present at every home game and most away games, cheering on the girls. They even travelled with the team to the Lower Mainland to support them at an away tournament despite not having a player on the team themselves. During the 2020 Covid-19 season, Wes and Pam went out of their way to make sure the association followed all of the pandemic protocols so that they could provide a summer softball season for the team, allowing my daughter and her team mates an essential physical and mental health outlet during a very difficult time. I can not overstate how much we appreciated the ability for our teenaged girls to play a sport and connect with others during those challenging pandemic years when social interactions were so limited.

The dedication of Wes and Pam has been recognized at a provincial level by Softball BC. Under Wes and Pam's leadership, Strawberry Vale Minor Fastball was nominated for "Best Small Association" in BC in 2018 and finished second in the province. In addition, Wes and Pam have been individually recognized by Softball BC as outstanding volunteers.

As a softball community, we are heartbroken that Wes and Pam will no longer be able to serve as executive for Strawberry Vale Minor Fastball. I believe renaming the Rosedale Park diamonds in their honour would be a fitting legacy for their decades-long service to not only the hundreds of youth and women who played softball at the park but also to Saanich and Greater Victoria as a whole.

Sincerely,

Nancy Dragicevich
Manager, U20C Strawberry Vale Kryptonite

To Whom it May Concern,

Pam and Wes have been an integral part of Strawberry Vale Fastpitch over several years.

They have given countless hours to the park and the community, providing a safe and very enjoyable program including the Learn to Play up to the Women's league.

Together we ran a lot of weekend tournaments, and they were always there early getting the park ready for all the teams playing.

They stayed late to clean up and get ready for the next day, which often came early.

The reviews that we often received were very complimentary to the organization and the overall condition of the park a very enjoyable atmosphere for everyone.

I think naming this field on behalf of Pam and Wes is more than deserving, and I strongly support this.

Yours in Sport,

Peter Dheensaw,

Former past President, Tournament Director, Coaching Coordinator,

Lean to Play Program Director, Team Coach.
