... ADJOURNMENT ...

The Corporation of the District of Saanich

Report

To: Finance Committee
From: Asset Management Steering Committee
Date: July 26, 2018
Subject: KPMG Control Observation – Capital Asset Tracking

Recommendation:

That development of a corporate Asset Management Program (including implementation of software to track assets) be forwarded to Council's Strategic Planning process.

Purpose:

To provide the Committee with information pursuant to the recommendation in KPMG's 2017 Audit Report – Implement Asset Tracking Software.

Background:

In 2007, the Public Sector Accounting Board introduced new provisions regarding the reporting for tangible capital assets. All municipalities were required to comply with these provisions starting in 2009 and this resulted in a significant amount of work undertaken primarily by Finance and Engineering Departments to develop accurate reporting. Saanich implemented a Tangible Capital Assets Policy in 2011 and started to record detailed data with the use of JD Edwards and Excel spreadsheets. These systems have remained in place to date.

The work that came out of this new provision aligned with discussions in Municipalities about infrastructure deficits and the need for Asset Management. Over the past decade considerable progress has been made in the public sector including the establishment of Asset Management BC (Local Government's Asset Management Community of Practice). Additionally, under the current Gas Tax Agreement with UBCM, Saanich is required to "Work to strengthen Asset Management, in accordance with the Asset Management framework developed by the partnership committee".

With the assistance of a UBCM grant, the District completed an Asset Management Maturity Assessment. The improvement plan that resulted is provided in Attachment A. Work on the short term governance goals are underway. An Asset Management Steering Committee (AMSC) has been formed consisting of the CAO, Directors responsible for the bulk of Saanich assets (Engineering, Parks and Recreation, Corporate Services), the Director of Finance, the Senior Finance Manager and the Manager of Project Quality Management. The AMSC has made progress on developing Terms of Reference and drafting an Asset Management Policy.

Discussion:

The Executive Summary of Asset Management BC's Framework is provided for reference as Attachment B. As noted, the first step is:

"Determine organizational capacity to undertake asset management as an ongoing corporate function. This includes a high level assessment of all the core elements: **people, information, assets, and finances**. The assessment results serve as a foundation for developing and implementing the **Process**".

This is one of the next Improvement Plan tasks for the AMSC: Setting Appropriate Maturity and Assessing Needs for Capacity Building. The work anticipated in KPMG's recommendation is reflected in the Improvement Plan under Asset Management Plans or AMPs:

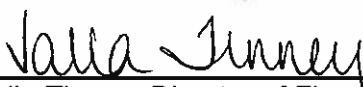

1. Short Term Goal – Register of Data
2. Medium Term Goal - Build Consistency between Registers
3. Long Term Goal - Consolidate Data into Single Source

The timing of the Finance Committee reviewing the KPMG recommendation aligns well with the work being completed by the AMSC. While converting the end tracking of assets for financial reporting purposes may be a smaller, more easily managed project, the synergies to be gained by incorporating implementation of an asset management program cannot be understated.

JD Edwards has an Asset Management Module that the District acquired with the original acquisition in 2003, but it was not implemented. It is currently on the JD Edwards road map and we are scheduled to assess implementation based on our "JD Edwards First" philosophy in 2020. Given the complexity of implementing this module it is likely a 2-3 year project involving multiple departments. Dedicated staffing and sufficient financial resources will be critical for project success and ongoing acceptance and use of a new system.

Given the magnitude of both staff and financial resources required to undertake this work, it is recommended that it be forwarded to Council's Strategic Planning process in early 2019 to be assessed with other priorities. Staff would also seek to conduct an educational opportunity for Council (given the complexity of the topic) prior to Strategic Planning, perhaps as part of the new council orientation process.
