

## **Wed May 17 is Asset Management Awareness Day!**

Asset Management Awareness Day on Wednesday, May 17, 2023 is part of British Columbia Local Government Awareness Week, which is presented by the Union of BC Municipalities in partnership with CivicInfo BC and the BC Ministry of Municipal Affairs.

Local governments strive to deliver services sustainably, and work to ensure that current community service needs, and how those services are delivered, do not compromise the ability of future generations to meet their own needs through sound asset management practices. This is a day to highlight the importance of Saanich's asset management program, and the work we do every day to deliver sustainable services to the community.

Did you know we maintain lots of different types of assets in order to use taxpayers' dollars wisely and keep Saanich running smoothly, now and into the future? Here are just a few examples of the built and natural assets we have under our care.

### **Transportation Services – Gorge Tillicum Bridge**

### **Water Services – Fire Hydrants**

**General Government Services – Transition to Zero Emission Fleet**

**Parks Services – Sports Courts**
