Portage Inlet Low Pressure Sewer Project PROJECT IMPLEMENTATION - NEXT STEPS

April 16, 2020

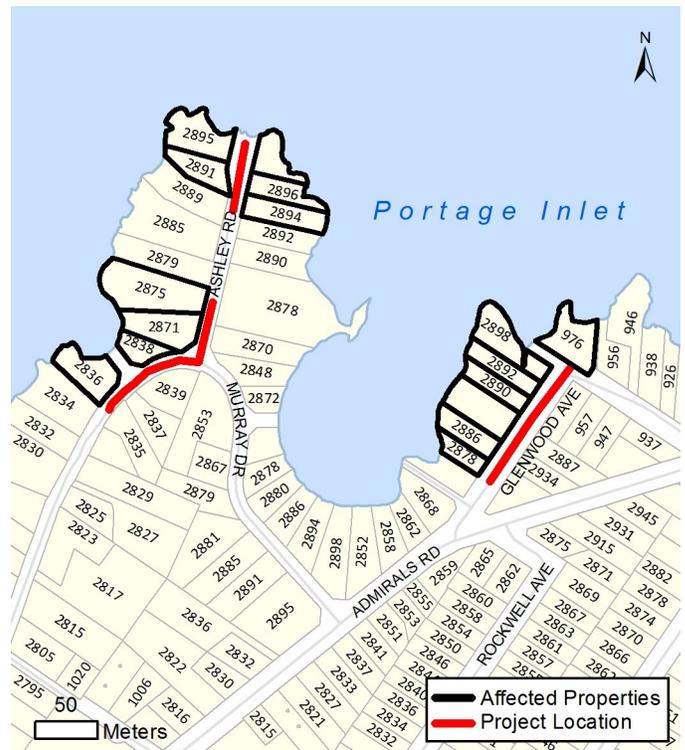

Project Update—COVID-19 & Communications

COVID-19 virus has been identified as a pandemic by the World Health Organization. In addition, the province of British Columbia has declared a provincial public health state of emergency. Due to these exceptional circumstances, Saanich continues to engage homeowners with alternative methods of communication in order to advance the project. Methods of communication are limited to phone calls, electronic mail, and snail mail. Individual in-person meetings will be permitted in compliance with provincial Centre for Disease Control COVID-19 recommendations on social interactions.

Letter of Permission and Agreement to Come

A letter of permission was previously provided for environmental and archeological investigations. For those homeowners who have returned the signed letters, thank you. For those still outstanding, we would appreciate if these could be signed and returned. This will allow us to ensure that the design is as informed as possible.

Project Location Map:

What are the next steps?

We will continue to specifically engage with individual homeowners that were not part of the previous project consultation. Archeological and environmental inspections will be scheduled in the next few weeks. An agreement document will be provided in a subsequent update which will outline the responsibilities of Saanich and homeowners of the new system. Subsequent updates on project progression will be provided as they become available.

Where can I learn more about the project?

A Frequently Asked Questions and additional project background has been uploaded to the project page, <https://www.saanich.ca/EN/main/local-government/departments/engineering-department/current-projects.html#water>. Project notices, and other publishable project documents are also included.

If you have any questions or concerns please, contact Joel Upsdell at
