## Portage Inlet Low Pressure Sewer Project

Public Information Session—March 19th, 2020

February 27, 2020

### Project Background

In the Portage Inlet area there are 3 sanitary sewer pump stations (Ashley, Murray No.2 and Glenwood) that are at the end of their service life and in need of replacement. Initially started in 2014, this project was paused in 2016 for further consideration. In 2019, the District of Saanich undertook a comprehensive study of several options in order to determine the best solution to maintain sewer services in the area. The project has risen in capital priority for implementation in 2020.

### What does this mean for me?

Currently, homeowners are provided sanitary sewer service by a single gravity-based pipe that flows from the home to a collection pipe in the roadway which gathers the sewage at the pump stations and pushes the flow along the system. This project will modify the service connection from the home to the street by adding a section of pressurized pipe and a small package pump station on each lot. This means construction work will need to take place on your property. The sanitary sewer main in the roadway will also be replaced with a pressurized pipe and the large pump stations will be retired.

### What is next?

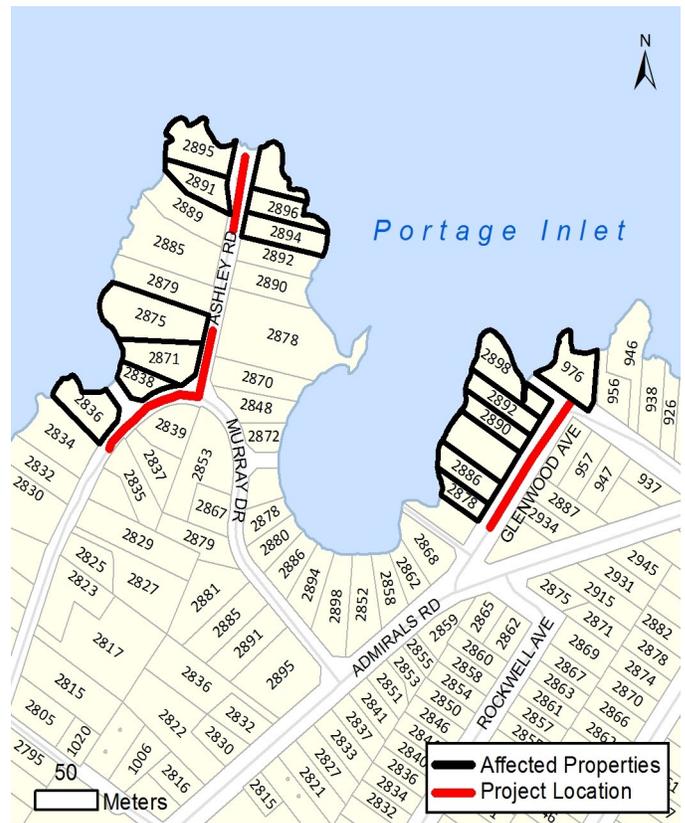

Staff are seeking to provide the affected residents with information on the project, impacts to property and discuss ongoing activities for archeological and geotechnical investigations. You are invited to a **Public Information Session**. It will be held on Thursday **March 19th from 15:00 to 19:00 at Craigflower Elementary School**. The design engineering firm Kerr Wood Leidal as well as District of Saanich staff will be in attendance. A brief presentation will be held at 15:00 and again at 17:00 describing the project. Residents will

have an opportunity to review planned works for their individual property and ask questions to the project team.

### What if I cannot attend the Public Information Session?

If you are not available for the information open house, staff would still like the opportunity to discuss the project with you. Please contact the District of Saanich to discuss an alternate time when you may be available. Contact information is provided below.

### Project Location

If you have any questions or concerns please, contact Joel Upsdell at

250-475-5575 or [Joel.Upsdell@saanich.ca](mailto:Joel.Upsdell@saanich.ca)

**Thank you for your patience as we continue to work on this project.**
