Portage Inlet Low Pressure Sewer Project Project Implementation Update

August 5, 2020

Project Update—COVID-19 & Communications

British Columbia is currently in Phase 3 of COVID-19 restrictions due to the current low risk. Saanich continues to engage homeowners with alternative methods of communication including phone calls, electronic mail, and snail mail. Individual in-person meetings will be permitted in compliance with provincial Centre for Disease Control COVID-19 recommendations on social interactions.

Project Construction and Work to Date

Since our last update, Saanich has been finalizing the project design and construction package. The construction that was originally planned to be completed this summer is now tentatively scheduled for the **spring of 2021**. Further updates will be sent closer to the time of construction.

Legal Agreements

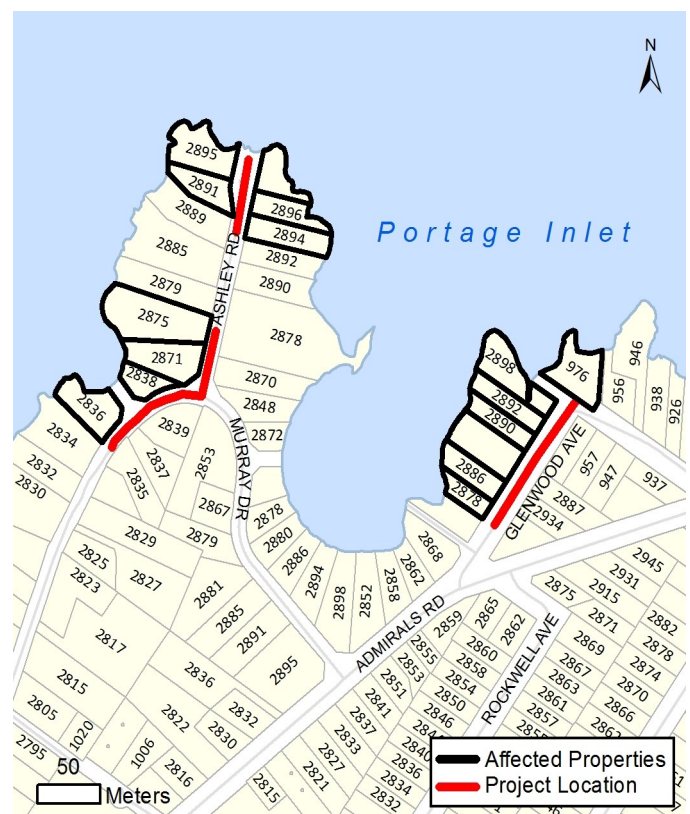

Included with this update is a legal property owner agreement, with an accompanying cover letter. This agreement outlines the system installed on private property, warranty information, responsibilities of the homeowner, and conditions of compensation payment. Please review the letter and agreement and return by no later than **September 30, 2020** if agreeable.

The individual drawing for your property indicating the alignment and proposed works are also included.

Where can I learn more about the project?

A Frequently Asked Questions and additional project background has been uploaded to the project page, <https://www.saanich.ca/EN/main/local-government/departments/engineering-department/current-projects.html#water>. Project notices, and other publishable project documents are also included.
