## Seaton Regina Sidewalk Project

Construction Update - May 11, 2023

### What's happening?

The District of Saanich will be upgrading the roadway and sidewalks on Seaton St and Regina Ave to current Saanich standards. Where possible, the sidewalks will be separated, featuring concrete curbs and gutters. The project will be divided into three phases:

1. Seaton St from Burnside Rd West to Hampton Rd
2. Seaton St from Hampton Rd to Regina Ave
3. Regina Ave from Seaton St to Tillicum Rd

A conceptual sketch of the first phase can be found on our Saanich Current Projects Webpage:

<https://www.saanich.ca/EN/main/local-government/departments/engineering-department/current-projects.html>

### Why are we doing this?

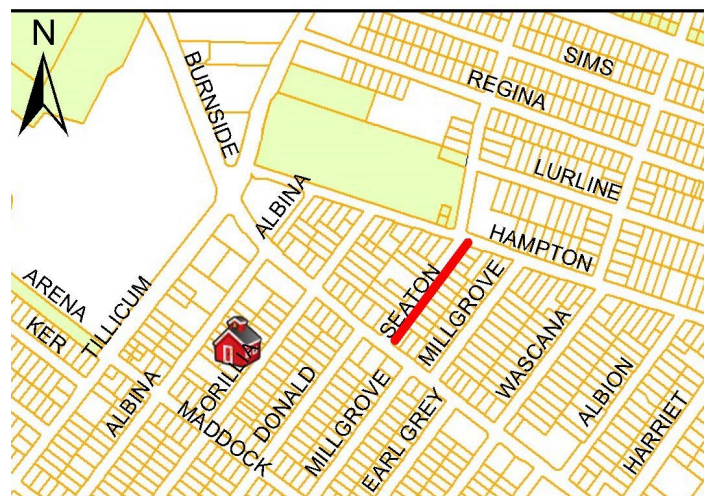

This project will provide improvements to the pedestrian facilities and roadway on Seaton St and Regina Ave in accordance with the current Saanich standards and the Active Transportation Plan. Both streets have been identified in Saanich's Active Transportation Plan as requiring short-term pedestrian improvements. Additionally, Seaton St is part of the long-term bike route network and connects to the cycling pathway beneath the Trans Canada Highway leading to the Galloping Goose Trail.

Creating safe, walkable, and connected communities is one of the top priorities of the Official Community Plan. This project will enhance safety for pedestrians

and cyclists travelling to Hampton Park and Tillicum Elementary School.

### Construction Impacts

Given the type of work involved and the current conditions of the road, **Seaton Street, extending from Burnside Rd West to Hampton Rd, will be closed to through traffic. The closure will not affect local access.** All residential driveways on Seaton St will remain accessible via Hampton St during the closure. This closure is part of the first phase of the project and is set to commence in late May 2023. Construction is anticipated to take approximately three months. Pedestrian access will be maintained throughout the closure. The District of Saanich will be responsible for restoring the construction area and will strive to minimize any inconvenience to local residents throughout
