Dear Minister:

Re: Child Care Inventory and Action Plan

On January 11, 2021, Saanich Council considered a Report to Council and resolved as follows:

"That Council direct Legislative Services staff to work with the Mayor to send correspondence on Council's behalf as listed as actions in the report of the Director of Parks, Recreation and Community Services dated November 30, 2020 as follows:

Write a letter to the Ministry of Children and Family Development advocating for:

- *A significant increase to base operational subsidies for child care facilities, in order to make wage increases and improved working conditions possible for Early Childhood Educators (ECEs). In particular, the Province should explore options to increase operational subsidy for care for children under 30 months, where rations and training make it very difficult to break even;*
- *The implementation of a competitive, publicly funded ECE Provincial Wage Grid, as proposed by the ECEs of British Columbia and the Coalition of Child Care Advocates; and*
- *An increase in funding for the Supported Child Development Program, in recognition of the increased need of children with extra support needs."*

Thank you for your attention to this matter. A copy of the report and meeting minutes are attached for information.

Yours truly,

DISCUSSION

District of Saanich Child Care Inventory and Action Plan - Section IV. Advocacy (p. 52)
Identify ways to leverage additional support by writing letters and calling upon other orders of government to take action.

There are a number of advocacy items identified in the Child Care Inventory and Action Plan. While some can be achieved by virtue of a letter, others will take more time and actions by other. Some of the items may have unintended consequences and require further exploration and discussion by Council.

Based on the above, staff have evaluated the advocacy recommendations and provided Council with the following recommended actions:

Government of BC	
Recommendation	Action
14. Consider endorsing the \$10aDay Child Care Plan, as Oak Bay and Victoria have done.	Refer to Council Strategic Planning process for potential budget implications.
School Districts	
Recommendation	Action
15. Write a letter to SD 63 & 61, copying the Minister of Education, encouraging the school districts to continue to develop child care on school district land, including completing an inventory of land where there are not active school sites to determine if child care could be sited there.	Request Legislative Services to work with the Mayor to send a letter on Council's behalf.
Capital Regional District	
Recommendation	Action
16. Submit a joint motion to the Capital Regional District Board, supporting the endorsement of the \$10aDay Child Care Plan.	If approved during Council Strategic Planning process (see Recommendation 14), request Legislative Services to work with the Oak Bay and City of Victoria to create a draft motion.
Ministry of Advanced Education, Skills and Training	
Recommendation	Action
17. Write a letter to the Ministry of Advanced Education, Skills and Training supporting: <ul style="list-style-type: none"> The creation of a bridging program for Early Childhood Educators trained outside of BC (both internationally and within Canada) to fast track their certification within BC: 	Request Legislative Services to work with the Mayor to send a letter on Council's behalf.

<ul style="list-style-type: none"> • The publishing of an annual transfer guide for Early Childhood Educators to simplify the provision of transfer credit between BC Early Childhood training providers, including both public and private institutions; • The continued funding of the development of new early childhood educator training programs which provide this education more accessibly to students, through programs such as part-time, workforce integrated learning, distance learning, and intensive programs; • The continued funding of the development and delivery of cohort training to increase the numbers of Indigenous Early childhood Educators; and • An increase in staff resources for the BC Early Childhood Registry. The Government of BC could improve the processing times for Early Childhood Educators trained in other parts of Canada to become certified in BC by increasing staff resources for the registry. The delay in processing times is discouraging to ECEs who move to BC to recertify here. 	
Ministry of Agriculture	
Recommendation	Action
18. Write a letter to the Ministry of Agriculture, copying the Ministry of Education, asking them to clarify with the Agricultural Land Commission that child care can be seen as an extension of school use for schools sited in the Agricultural Land Reserve.	Refer to Council Strategic Planning process for land use implications.
Ministry of Children and Family Development	
Recommendation	Action
19. Write a letter to the Ministry of Children and Family Development advocating for: <ul style="list-style-type: none"> • A significant increase to base operational subsidies for child care facilities, in order to make wage increases and improved working conditions possible for early childhood educators. STRATEGIC IMPLICATIONS

To be determined during Council Strategic Planning Process.

FINANCIAL IMPLICATONS

Many of the recommendations in the District of Saanich Child Care Inventory and Action Plan only require staff time to draft a formal letter, and the consideration and endorsement from Saanich Council.

Other items are more complex and could have secondary planning or financial effects. Those items have been referred for more robust consideration during Council Strategic Planning process.

CONCLUSIONS

The Child Care Inventory and Action Plan contains many progressive, systemic recommendations that remove barriers and support the creation of new child care spaces and support already existing businesses.

Increasing the inventory of child care spaces available to working families certainly has a positive impact on the livability of this community. However, altering the structures that govern child care facilities has the potential to cause secondary impacts to neighbourhoods and businesses alike. Council must carefully consider all angles, and call upon subject matter experts, before choosing a direction on new space development for Saanich.
