The River

The flow of the water runs like a cougar. Flies like a butterfly.
And leaps like a young frog jumping into the river.
The sound of the water makes you feel like you're in an oasis.
Jumping into the cool water on a summer day. The smell of the river is fresh and free.
As if you were flying up far away out of polluted air. Over the clouds and very far away
Freedom blowing on your body and then you land.
Back to the natural Colquitz River at last.

When a tree is born,
A seed is hatched
And a little sprout comes to life
It brings another world,
a world for the earth itself

when you kill
a garry oak
you kill all
the organisms
in it too

There
are only
15 of 100
of Garry
oaks grow fully
