

# WELCOME to our first engagement session!

Your input will help shape the future of Kings Community Nature Space

**WE ARE HERE!**

**This is just the first phase of several phases to bring the community's vision for the space to life!**

**This will be a long-term investment**

**We'd like to recognize the community's effort and commitment to help us arrive at this point in this**

**We appreciate your time and effort. Thank you in advance for sharing with us**

We ask that everyone:

- Share the responsibility for an effective meeting
- Respect the diversity of experience and wisdom of all participants
- Ensure everyone has a voice
- Challenge ideas, not people
- Speak to be understood, and listen to understand
