<b>Peacock Hill</b>	SE. of Swan Lake in Victoria Dist. "Named for quantities of the Peacock flower or Shooting Star (Dodecatheon spp.) in spring." This is an example of folk etymology. Although it was widely believed (I write from personal knowledge; I was a child in this neighbourhood during the forties and fifties.JEM) until the 1980s, the source of the name was probably John Peacock, who raised pigs on the hill prior to the formation of the Municipality. Since he lived at the intersection of Tolmie and Bellevue, it seems probable that the name Peacock's Hill may have originally applied to the long rising slope of Tolmie Ave to his house.
